INDEX

MULTIMEDIA CONNECT, A SUBSIDIARY OF TKH GROUP, LEADER IN ITS MARKETS

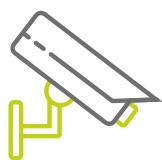

Specialized in innovative technologies and listed on the Amsterdam Stock Exchange, TKH Group is a Dutch company that develops and markets global solutions for infrastructures, telecommunications and the industry niche.

TKH Group, a leader in its field, is present all over the world with more than 75 manufacturing and distribution subsidiaries.

Smart Technologies: The heart of development

With 85 years of experience, TKH Group focuses its developmental capacities to create high added-value solutions for 4 different technological planes:

SECURITY

COMMUNICATION

CONNECTIVITY

INTELLIGENT
MANUFACTURING SYSTEMS

THE POWER OF THE MANUFACTURING DIVISION: KNOW-HOW, TECHNICITY & PRODUCTION CAPACITY

Multimedia Connect has always dedicated significant resources to the research and development of new solutions. This commitment resulted in the creation of a manufacturing hub, which allows for the unification of manufacturing know-how and design.

**“As a solution designer,
MULTIMEDIA CONNECT keeps
a permanent watch on new
technological developments
which feeds and inspires their
projects for progress.”**

In order to better meet the specific demands of its customers, MMC has made its know-how accessible for the design and development of unique solutions. This service has enabled the development of numerous solutions used in projects on a nationwide scale.

TKH Group has full control over their production power with over a dozen factories dedicated to manufacturing. Each factory is organized by their speciality: optical fiber, copper cables, cords, connectors.

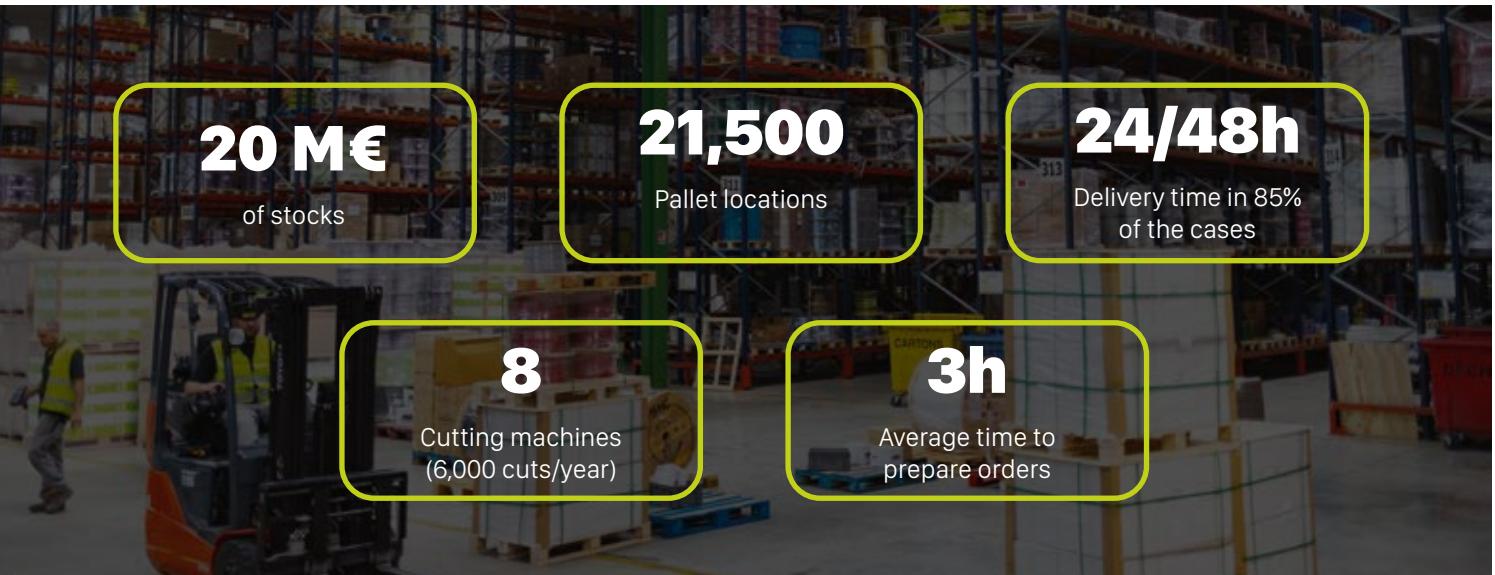

Each factory works in accordance with the international ISO 9001 and ISO 14001 standards.

STRENGTH IN LOGISTICS

MULTIMEDIA CONNECT boasts about their expertise in logistics. Its logistics platforms, located in the Paris region, focuses primarily on their quality of service, especially when making their 80,000 deliveries per year, both in France and internationally.

The site utilises a WMS software to ensure full traceability and has automation machines that allow for the management of large supply chains.

Customer-focused services

- Routine quality control before each stock entry.
- In the case of scheduled orders, creating customized stocks is a possibility.
- Transport: courier, express courier & charter.
- Delivery at your chosen destination: delivery to upper floors, construction sites, secure sites, etc.
- Willing to follow your security protocols.

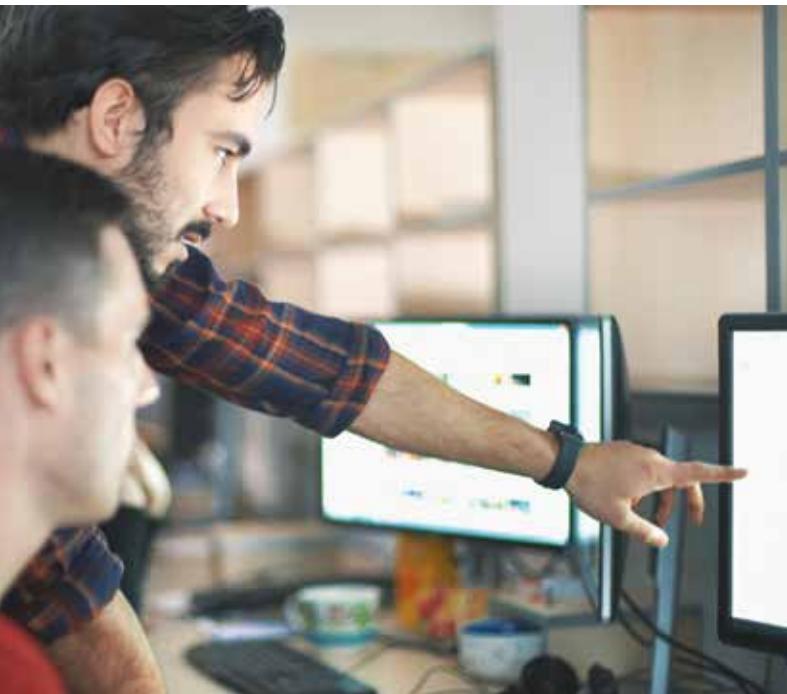

Rigorous testing

Each incoming delivery of products from the factories is thoroughly inspected by MMC's quality control department.

A sample of each delivery is tested and a tracking sheet is generated to ensure product traceability to the end user. All LAN and coaxial cables are subjected to high-frequency electrical tests to ensure compliance with IEC standards. The laboratory is equipped with the latest generation of control and measurement equipment, including a network analyzer that is capable of testing up to 2 GHz of transmission performance.

SERVICES TO ASSIST IN **THE SUCCESS OF YOUR PROJECTS**

F.I.R.S.T. Training Center

The F.I.R.S.T. training center is dedicated to offering training courses that certify partners in several mediums - e.g. optical fiber and structured copper cables.

Production workshop: tailor-made requests are MMC'S standard products

MMC's production unit can be found in the logistics center within the region of Paris. It carries out the research and production of copper cables in order to meet the specifications of any installation. The production unit specializes in the integration of racks, VDI equipment cabinets, copper trunk, pre-terminated optical panel, etc. However, it is also able to respond quickly to each wiring challenge faced by individual customers.

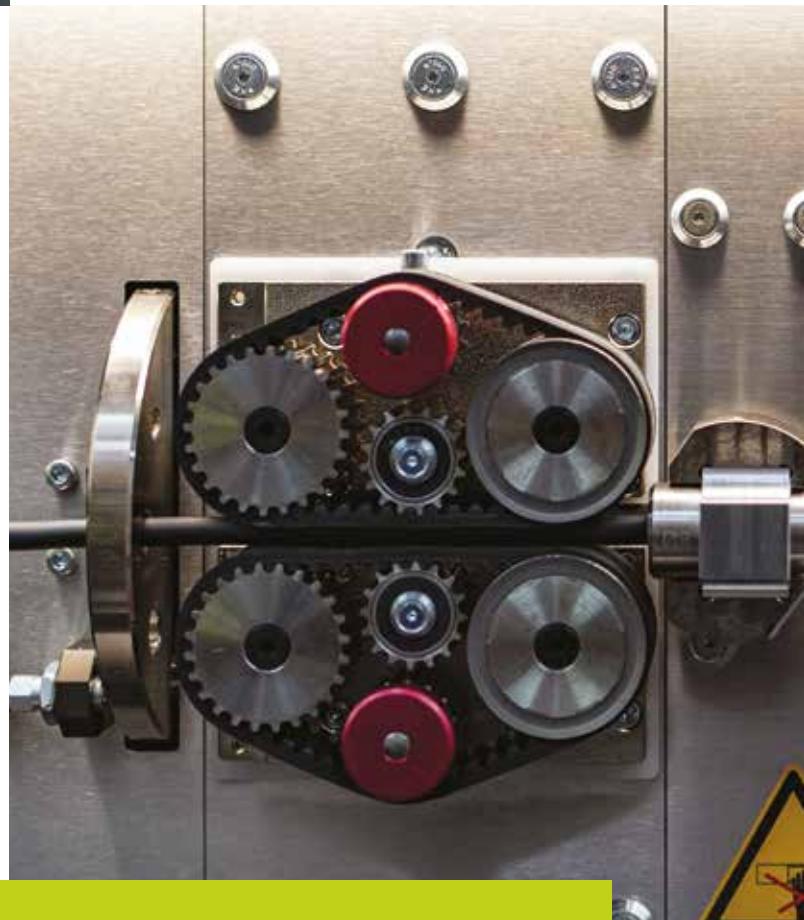

MMC makes their expertise readily available and offers a broad range of services in order to accompany their customers throughout their projects.

Design office for CCTP

MMC's experienced and multidisciplinary technical team is at your disposal to compile and fulfill special requirements, which includes drawing up layout diagrams and analyzing costs.

Specific solutions

After studying your specific requirements and/or drafting a distinct proposal, we can fabricate tailor-made solutions that guarantee a response that is best adapted to meet your needs.

MMC's skills, know-how, and commitment are at your disposal to ensure the success of your projects.

DEDICATED SOLUTIONS FOR EACH ARENA

MMC offers a large and complete range of solutions to meet every application.

The R&D department has developed these unique solutions and has adapted them to meet the needs and installation specifications of each environment.

11 - INFRASTRUCTURES

Fire resistant cable

10 - CARE

High EMC cabling solutions
Antibacterial solutions

9 - EDUCATION

2 - INDUSTRY 4.0

Waterproof junction box
Armored fiber cord

3 - AIRPORTS

Cabling solutions for security : IP/analog
videosurveillance and access control

4 - MALLS

Cabling solutions for IP applications :
Security, display screen, etc.

5 - STADIUMS

Audio amplification solutions
Video Broadcasting solutions

CARE SOLUTIONS

Management of nosocomial infections, safety and the security of people are key components and issues hospitals must face, as well as addressing the comfort of their inpatients. This comfort can be enhanced by offering television and other multimedia services. After completing their due diligence, MMC has become aware of the issues hospitals are facing today and have solutions adapted for the healthcare environment.

Fire resistance

The complexity of a hospital facility requires an evacuation procedure within a short and efficient time frame which allows for the evacuation of infirm or bedridden patients. To satisfy this requirement, MMC recommends the use of cables that have a high fire resistant capacity, rated Cca or B2ca that are in accordance with EN 50575. MMC's range of cables are rated with the CPR class necessary for these types of environments.

TV reception

The world of telecommunications is changing with cable TV reassigning the frequencies from analog to digital and telephone operators deploying 4G, LTE, and, in the near future, 5G. IP cabling TV solutions have become indispensable in hospitals everywhere and, therefore, must have an excellent bandwidth in order to transmit data signals. Multimedia Connect is able to fulfill the expectation of IP TV services through their solutions.

EMC

Medical imaging equipment emits high levels of electromagnetic fields, which can interfere with the data transmission from cables. That is why MMC recommends that cabling systems be equipped with a highly efficient shield so as to achieve the best S/N ratio and guarantee a low transmission error rate. Multimedia Connect's range of S/FTP cables and ZAMASK shielded connectors offer the ideal solution for the electromagnetic emissions problem in hospitals.

Healthcare-associated infections

In order to guarantee a high degree of immunity in operating rooms, as well as in any space that may contain patients, Multimedia Connect offers a range of antibacterial products for healthcare institutions, which are also suitable for the food industry. These products offer resistance to the most infectious bacteria (Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa, etc.). These products comply with the antibacterial standard JIS Z 2801. The Multimedia Connect antibacterial range is completed with sterile cords that are assembled in ISO 8 clean rooms.

SMART BUILDING SOLUTIONS

The approach to working has evolved: teleworking, scalable workspaces, coworking, the presence of IoT, etc. These changes have led to a different mentality when it comes to the typology of offices and, as a consequence, cabling infrastructures. Standardization committees have taken these changes into consideration and have rectified the 3rd edition of ISO 11801, which supports IP convergence.

PoE management

The new 802.3bt PoE standard offers 60 W of power. In order to reduce losses caused by the Joule effect and overheating brought on by the increased power, Multimedia Connect recommends cables with larger sections. An AWG22 twisted pair cable is an ideal cabling solution because it is able to ensure the optimal power of the 802.3bt standard. The IEC 60512-99-00x standard allows the resistance of the contacts in RJ45 connectors to be checked despite being frequently connected and disconnected while active. The Multimedia Connect IV and BCTL ranges are certified by an independent laboratory and comply with 4PPoE.

Modular distribution

The distribution network of cabling infrastructures can evolve: the organization of open space offices and the need to make investments profitable often push installers to opt for pre-connected modular cabling solutions. Multimedia Connect hub boxes can be mounted in false floors or ceilings thus offering modularity within the premises. Combined with flexible or rigid links, your cabling infrastructure will be ready for the future.

Direct Attach solution

The latest version of 4PPoE requires installers to use AWG23 or AWG22 cables in order to connect remote powered IP equipment. The Multimedia Connect PL range enables RJ45 plugs to be connected with cables that have a gauge up to AWG22 without the use of a crimping tool. The PL6AFS solution, with the high-quality ZAMAK shielding, has excellent EMC characteristics, which is ideal for connecting WiFi access points. The PLAG solution has a 135° RJ45 head thus allowing terminal equipment to be connected in confined spaces while also assuring sufficient radius of curvature.

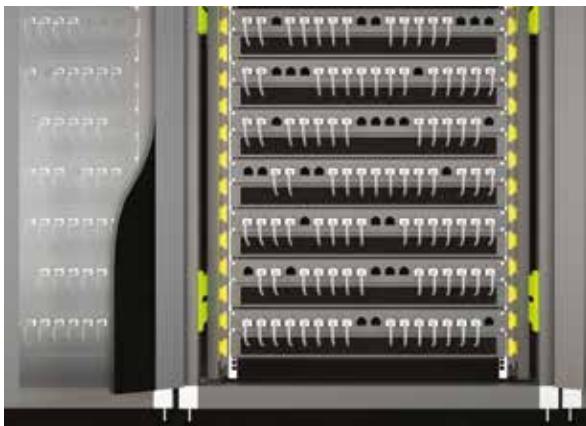

Custom solutions

To ensure a lower cost, installation time must be optimized and modularity of spaces is highly important. Therefore, Multimedia Connect offers a range of custom pre-connected links which are assembled in their own workshops. By offering these pre-connected RJ45 consolidation links, MMC has put their expertise in cabling systems at the disposal of their customers and end-users.

DATA CENTERS SOLUTIONS

Whether hyperscale or smaller in size, Data Centers require a high port density in order to minimize the number of storage arrays and, therefore, the floor space. The increase in data rates and bandwidth favors the presence of server rooms with specific needs: access control, air flow management, redundancy, and more.

Cat8 cabling

The IEEE 802.3bq protocol allows 40 Gbit/s of transmission over twisted pairs, for high-speed applications with a very competitive port price. This new protocol, dedicated to data centres, has led to a new category in copper cabling: Cat8. Multimedia Connect's Cat8 cabling system, SF20004SHC, is composed by a special assembly and construction which gives it one of the lowest BER rates. In addition, its CPR Cca level offers fire resistance characteristics fitted for data center environments and contribute to the security of the stored data.

High density

Data Centers costs can be cut through ingenuity by reducing power consumption per m², saving space, and other means. By combining modularity, scalability and ultra-high density, MMC's DC and UHD optical ranges are able to help you in your pursuit of cutting costs. A complete range of pre-connected optical links, with a very high density, that are based on small-diameter cables with MTP or MPO connectors completes MMC's data center solutions..

Power supply

The power supply of a data center is absolutely crucial and, with a UPS power solution, data centers are able to operate 24/7.

MMC has a range of silicone cables that are ideal for powering inverters up to 1.5 kVA.

The silicone sheath ensures the flexibility of the cable while also offering high temperature resistance that allows it to withstand the Joule effect..

Storage arrays

Storing servers and its equipment requires cabling racks with a high loading capacity. Multimedia Connect racks are tested up to 1,250 kg to offer the best solution that meets the needs of data centers. In addition, the management of hot and cold air flows is optimized by the use of honeycomb doors with a perforation rate of 80%.

The large entry level brush openings on the roof of MMC'S racks allow for cabling management in the case of ToR or EoR configuration.

EDUCATION SOLUTIONS

Schools, colleges, universities and other educational facilities needs in terms of multimedia cabling, video surveillance and access control cabling have increased.

The versatility of these facilities requires specific technical solutions.

The range of products and their technical expertise allows MMC to offer you the most suitable solution for your installations.

Alarm and video surveillance cables

IP configuration has become the basis in security: e.g. video surveillance and access control. This new practice is proof that IP convergence is becoming the new norm. Multimedia Connect offer a large range of solutions in IP security : external CAT6 cables or a special AWG26 cable that connects directly to your IP devices.

HDMI faceplates and custom leads

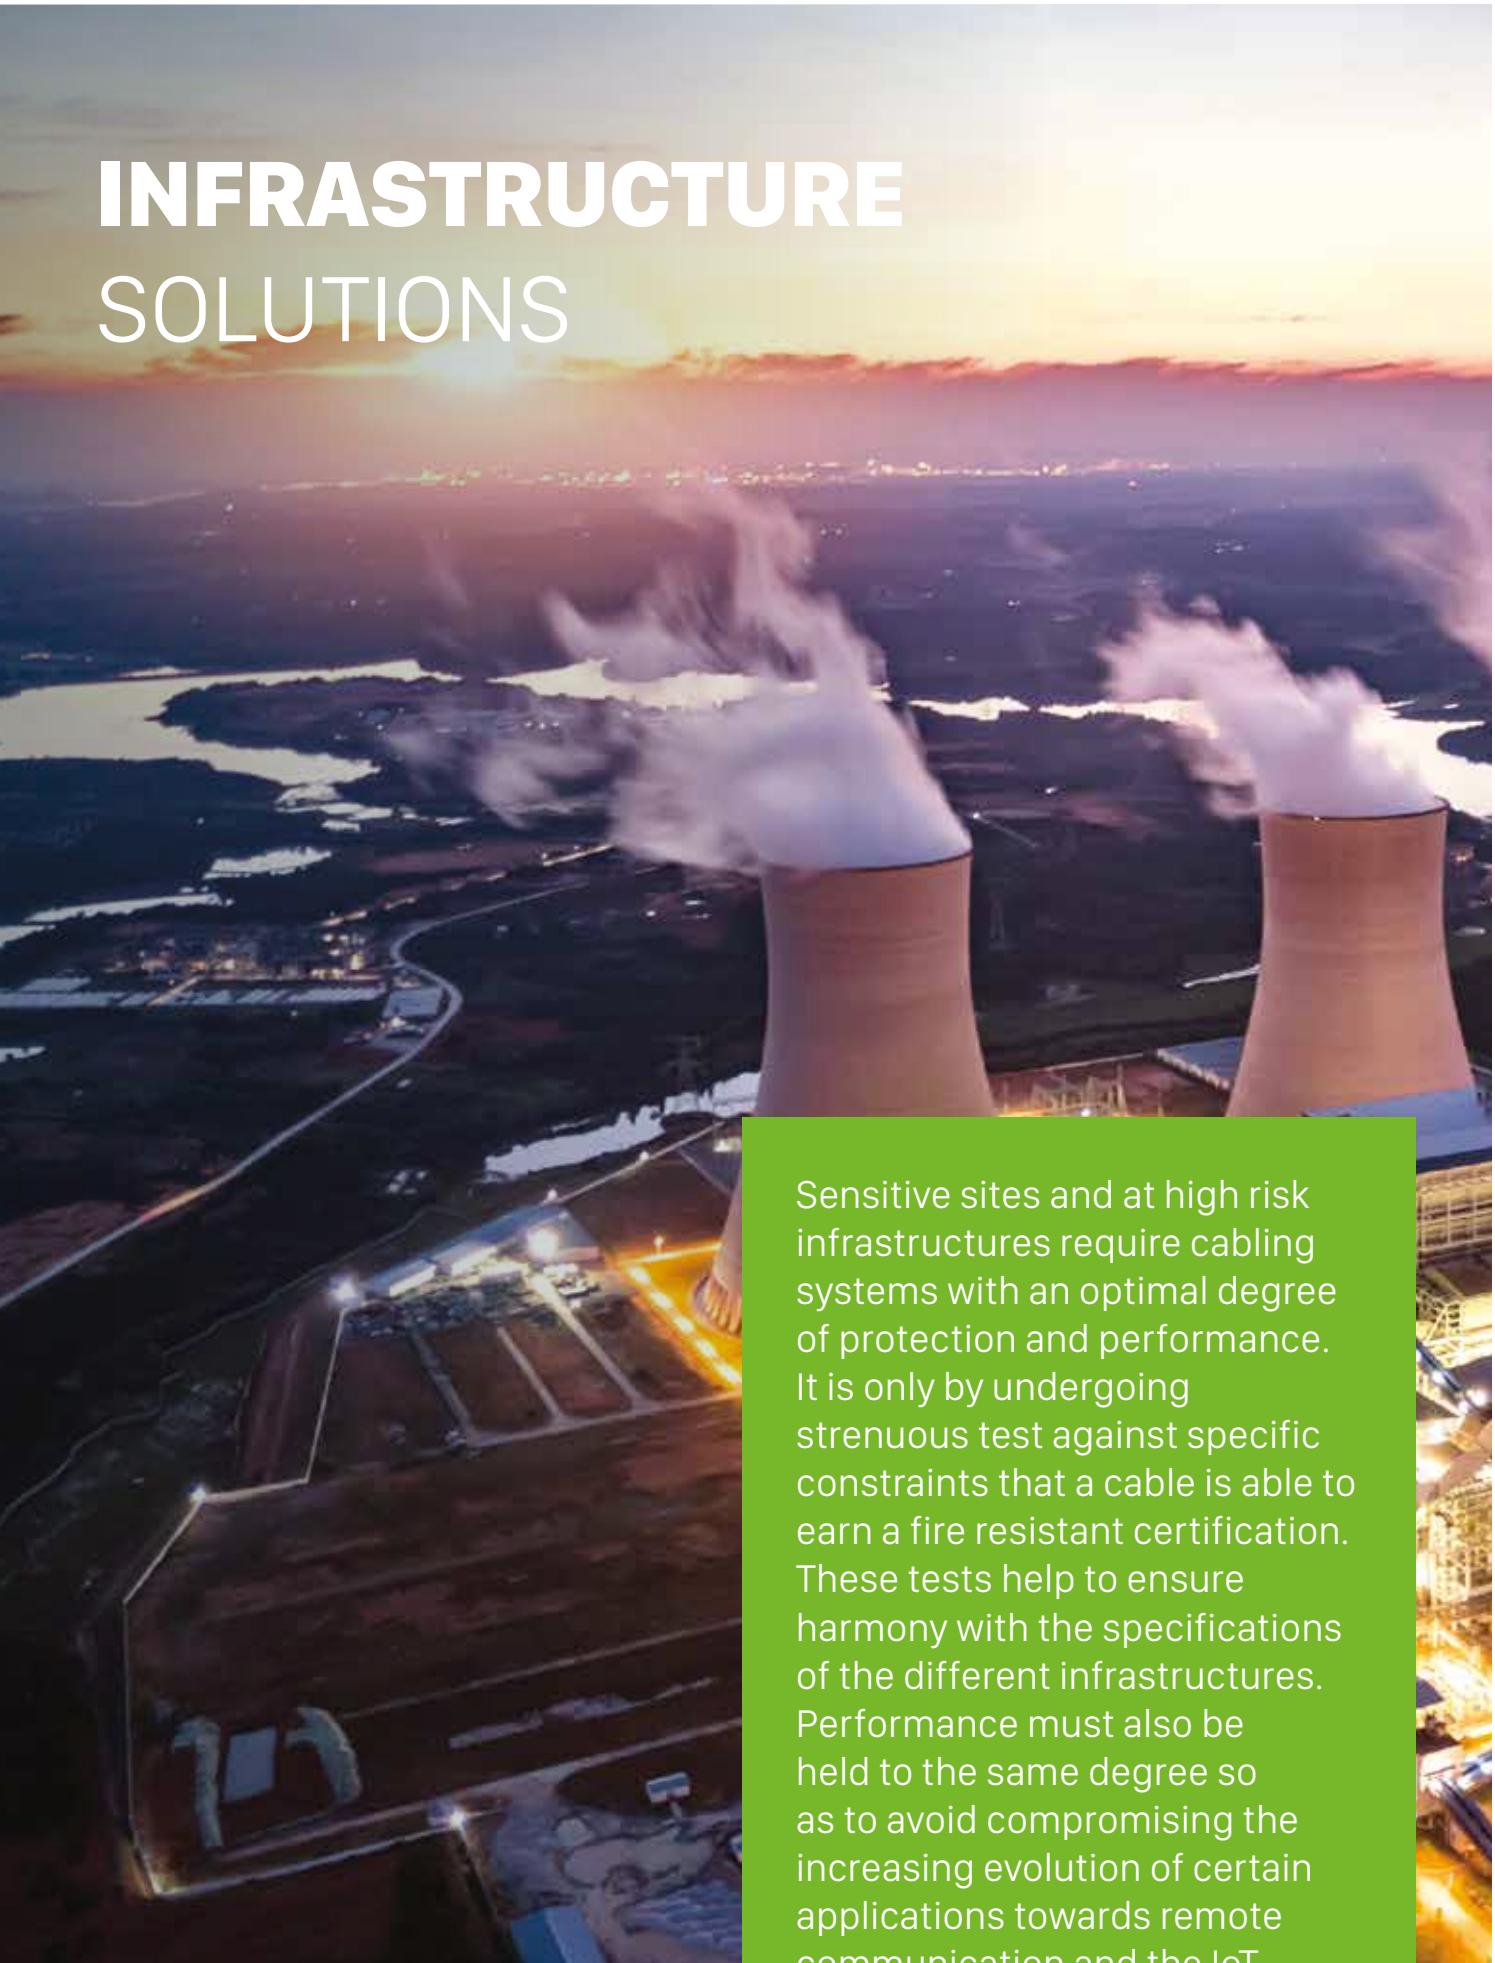

MMC's range of cables, cords, and faceplates allows their users to pre-wire all audio and video liaisons present in a building: VGA, audio, HDMI, video, USB. Their production facility based in France can provide pre-connected links that are quick and easy to implement and use.

Lockable faceplates

The various access points in classrooms and other gathering places are often damaged by the insertion of foreign objects. These actions permanently deteriorate the plug's contacts (RJ45, HDMI, etc.), thus requiring the replacement of the connectors. To fight against the damage and preserve the plugs, Multimedia Connect has developed a 45x45 faceplate equipped with a lockable dust cover. In addition, the materials that make up these faceplates are ULVO-rated and are, therefore, fire resistant.

INFRASTRUCTURE SOLUTIONS

Sensitive sites and at high risk infrastructures require cabling systems with an optimal degree of protection and performance. It is only by undergoing strenuous test against specific constraints that a cable is able to earn a fire resistant certification. These tests help to ensure harmony with the specifications of the different infrastructures. Performance must also be held to the same degree so as to avoid compromising the increasing evolution of certain applications towards remote communication and the IoT.

Security

Sensitive environments require a high level of safety and necessitate security solutions that meet rigorous constraints. The quality and excellent fire resistance characteristics of MMC's C1, Cca or B2ca certified products allow Multimedia Connect to play a major role in the construction, maintenance and improvement of electrical installations and/or sensitive sites. The major national players in these fields place their trust in MMC, and this recognition encourages them to further develop their product ranges..

Fire resistance

The safety of people in high-rise buildings, tunnels and other at high risk infrastructures that are open to the public require the use of products that have good responses and/or resistance in case of fire.

MMC's product ranges include fire resistant products such as the FOFIRE.

The performance of these products is verified by MMC's technical teams to guarantee an excellent fire resistance performance, and is also certified by independent laboratories.

Radio frequency systems

Convergence of voice, data and images while simultaneously improving the services offered to users are the greatest challenges facing telecommunication infrastructures today. However, as technology advances (4G, 5G, and LTE) MMC is more inspired than ever to solve the problem of access to broadband services and instantaneous information. MMC develops and provides cabling solutions that meet these ever-changing needs.

Remote reading solutions

Monitoring power consumption in real time, whether for economic or ecological purposes, is a topical issue, both for private individuals and industrial companies.

Built on the strength of more than 30 years' experience in the transmission of high-frequency signals, MMC is able to meet this challenge thanks to its tailor-made solutions. Their mastery of cable design and manufacture enables us to offer a range of products adapted to the remote reading process.

Structured copper and optical cabling, racks and cabinets

Created in 1993, Multimedia Connect is a brand recognized in its market for its copper and optical solutions.

With a "smart & simple" mindset, the products are designed to facilitate the work of the installer and the user. By offering innovative solutions that are dedicated to IP convergence, the transition to smart city and building is facilitated.

The Multimedia Connect brand was a pioneer in connectivity with its tool free products, and, today, they fortify their position by offering the first 100% toolless connector equipped with ceramic blades: the IV connector.

From CAT5e to CAT8, the solutions are certified by independent laboratories in order to guarantee optimal performance that is in full compliance with even the most demanding business standards.

The optical solutions range is very diversified and is intended for both indoor and outdoor network installations. It covers all the needs of projects for buildings, infrastructures and/or data centers.

ISO 11801 Ed3

A new edition for new applications

ISO standard dedicated per application & environment

ISO 11801-1

General Specifications

ISO 11801-2
Office

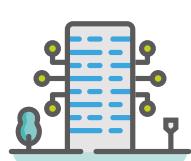

ISO 11801-3
Industry

ISO 11801-4
Residential

ISO 11801-5
Data center

ISO 11801-6
Building service

These new ISO standards are now aligned per application, with some new trend and with the confirmation of some obsolescences :

ISO 11801-1

General specifications

- Stop of OM1, OM2 & OS1 fiber
- Introduction of the Cat8 & OM5 fiber

ISO 11801-2

Office :

- At least CAT6A solution for all rate >1 Gbit/s

ISO 11801-5

Data center :

- Introduction of new performance copper and fiber optic

ISO 11801-6

- At least Cat6A solution for data cabling
- Introduction of new POE standard : 4PPoE

The new Cat8 standard

Dedicated to the data center application, this new norm answer to the high rate cabling performance to offer a competitive price per port. if the TIA standard define only one CAT8 category, the ISO standard 11801 Ed3 define 2 types of Cat8 performance :

CATEGORY / CHANNEL	Cat8 TIA		Cat8 ISO	
	Cat8	Cat8.1 / Class I	Cat8.2 / Class II	
BANDWIDTH	2 GHz	2 GHz	2 GHz	
MAX RATE	40 Gbits/s	40 Gbits/s	40 Gbits/s	
MAX LENGTH	30 m	30 m	30 m	
CONNECTIVITY	RJ45	RJ45	GG45 / TERRA	

Summary of categories

BANDWIDTH (MHz)	CATEGORIES	CLASS	APPLICATION	APPROVED	TYPE OF CONNECTIVITY
16	3	C	10 Mbits Ethernet	1991	RJ45
100	5e	D	100 Mbits, 1Gbit, 2,5 Gbits Ethernet	1995	RJ45
250	6	E	1Gbit, 2,5 Gbits, 5 Gbits Ethernet	2002	RJ45
500	6A	EA	10 Gbits Ethernet	2007	RJ45
600	7	F	10 Gbits Ethernet	2002	GG45 & TERRA
1000	7A	FA	10 Gbits Ethernet & Multimedia	2009	GG45 & TERRA
2000	8.1	I	25 Gbits & 40 Gbits Ethernet	2016	RJ45
2000	8.2	II	25 Gbits & 40 Gbits Ethernet & Multimedia	2016	GG45 & TERRA

Applications

- VOICE: Analogic, ISDN, VoIP
 - DATA: Ethernet up to 10 Gbit/s
 - POWER : up to 4PPoE

Standards

- CABLE : IEC 61156-5 Cat6A
 - SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173-1: 2011 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG23 solid copper
INSULATION	Skin Foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil Overall general shielding Al/Pes foil
SHEATH	LSZH purple RAL 4001

Properties

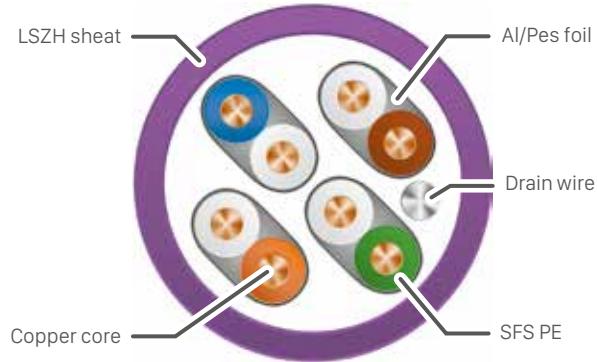

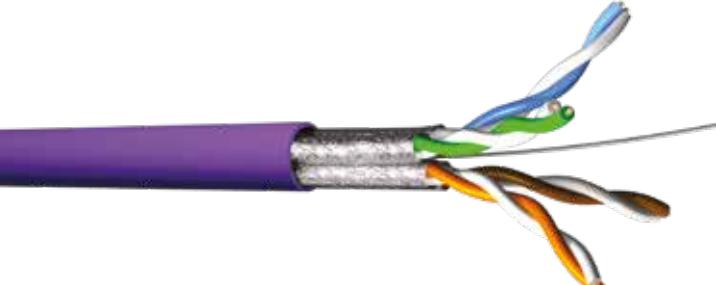

MECHANICAL	Bending radius	8 x Ø
ELECTRICAL	Linear resistance	95 Ω/km
	Characteristics impedance	100 Ω
	Nominal velocity propagation	79 %
	Coupling attenuation	75 dB
ENVIRONMENTAL	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1
	CPR level	B2ca s1a, d1, a1 Cca s1, d1, a1 Dca s2, d2, a2

Ordering information

Part Number	Pairs	Sheath	CPR Level	Outer Diameter (mm)*		Packing (m)
				4P	2x4P	
F555xSHy	4 - 8	LSZH	Dca s2, d2, a2	7.4	7.4 x 15.3	C100 - B305 - D500

CATEGORY 6A **SOLID CORE CABLES**

CATEGORY 6A U/FTP AWG26 CABLES

ON REQUEST

ADVANTAGES

- Dedicated to Data Center application
 - Tested up to 525 MHz
 - Saving space thanks small diameter (AWG26)
 - Available on request to 6 x 4 and 12 x 4 pairs version

Applications

- VOICE : Analogic, ISDN, VoIP
 - DATA : Ethernet up to 10 Gbits/s

Standards

- CABLE : IEC 61156-5 Cat6A up to 60 m
 - SYSTEM : ISO 11801 Ed.3 Ea Class up to 60 m
EIA / TIA 568.2-D Cat6A up to 60 m
EN 50173-1: 2011 Ea Class up to 60 m

Characteristics

CONDUCTOR	2 x 4 AWG26 solid copper
INSULATION	Skin Foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil
SHEATH	Outer sheath LSZH purple RAL 4001 Inner sheath : LSZH grey RAL 7035

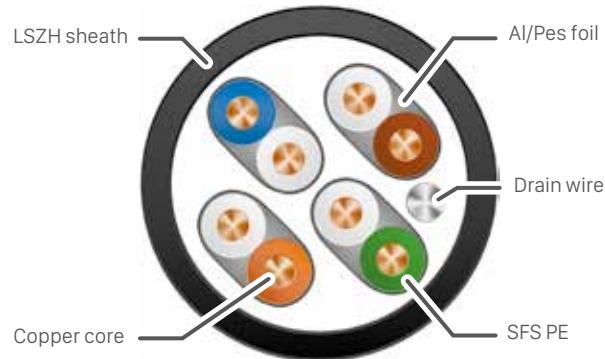

Properties

MECHANICAL	Bending radius	8 x Ø
ELECTRICAL	Linear resistance	135 Ω/km
	Characteristics impedance	100 Ω
	Nominal velocity propagation	76 %
	Coupling attenuation	70 dB
ENVIRONMENTAL	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1

* The external sheath is subject to a +/- 0.2 mm difference in diameter.

CATEGORY 6A U/FTP IN/OUT CABLE**+ ADVANTAGES**

- Exceed standards performance: tested up to 525 MHz
- Easy installation : suitable for indoor and outdoor applications, water and UV resistant
- Tested in high climatic environment

Applications

- VOICE : Analogic, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- CABLE : IEC 61156-5 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173 Ed2.2 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG23 solid copper
INSULATION	Skin Foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil
SHEATH	LSZH black with high degree UV protection

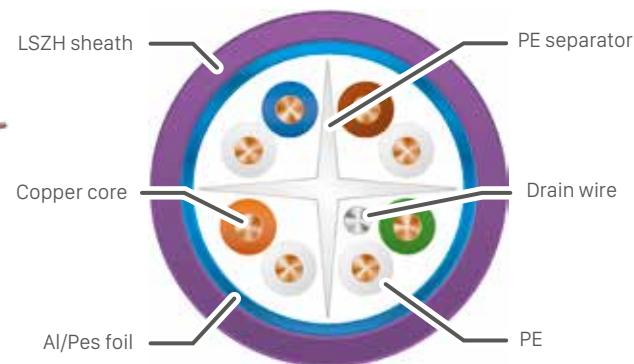

Properties

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	95 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	78 %
ENVIRONMENTAL	Coupling attenuation	70 dB
	Operating temperature	-20°C to +60°C
UV resistance	IEC 60068-2-5	
Ozone resistance	ASTM D-470	
Moisture resistance	CEI20-34	
CPR level	Dca s2, d2, a2

CATEGORY 6A F/UTP CABLES**+ ADVANTAGES**

- Exceed standards performance: tested up to 510 MHz
- Electrical supply of equipments (camera, hotspot wifi, IP phone ...)

Applications

- VOICE : Analogic, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- CABLE : IEC 61156-5 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173-1: 2011 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG23 solid copper
INSULATION	Solid PE
ASSEMBLY	4 twisted pairs over a central PE cross
SHIELDING	Overall general shielding Al/Pes foil
SHEATH	LSZH purple RAL 4001

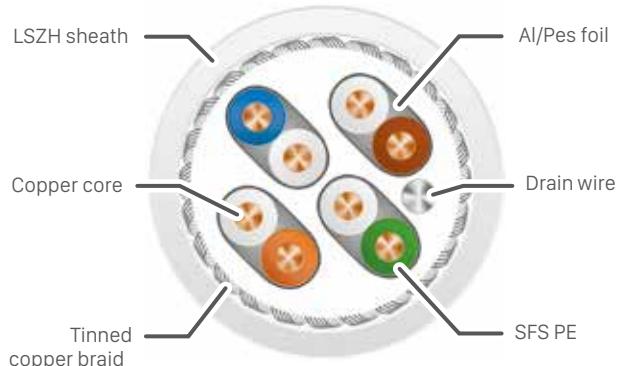

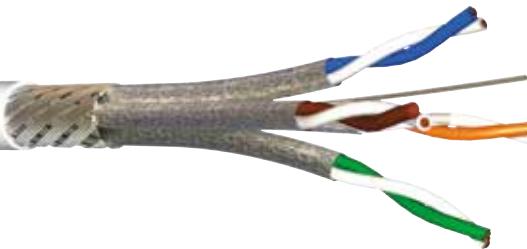

Properties

ELECTRICAL	MECHANICAL	Bending radius	8 x Ø
	Linear resistance	95 Ω/km	
	Characteristics impedance	100 Ω	
	Nominal velocity propagation	66 %	
ENVIRONMENTAL	Coupling attenuation	65 dB	
	Operating temperature	-20°C to +60°C	
	Fire rating	IEC 60332-1	
	CPR level	Dca s2, d2, a2	

Ordering information

FU5108SH5	2 x 4	LSZH	7 x 14.5	D500

* The external sheath is subject to a +/-0.2 mm difference in diameter

CATEGORY 6A S/FTP CABLES**+ ADVANTAGES**

- Discreet installation thanks to his white external sheath
- Excellent electromagnetic immunity: thanks to a double shielding S/FTP
- Available in excellent CPR level: up to B2ca

Applications

- VOICE : Analogic, ISDN, VoIP
- DATA : Ethernet up to 10Gbit/s
- POWER : up to 4PPoE

Standards

- CABLE : IEC 61156-5 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173-1: 2011 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG23 solid copper
INSULATION	Skin Foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil Overall general tinned copper braid shield
SHEATH	LSZH white RAL 9010

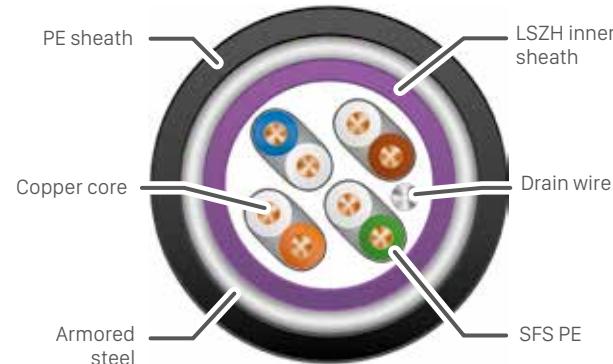

Properties

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	95 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	78 %
ENVIRONMENTAL	Coupling attenuation	>80 dB
	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1
	CPR level	B2ca s1a, d1, a1 Cca s1a, d1, a1

* The external sheath is subject to a +/-0.2 mm difference in diameter

CATEGORY 6A U/FTP ARMORED CABLE PE**+ ADVANTAGES**

- Exceed standards performance: tested up to 525 MHz
- Excellent rodent protection: Armored steel tape
- Direct buried installation thanks to a high crush resistance

Applications

- VOICE : Analogic, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- CABLE : IEC 61156-5 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173-1: 2011 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG23 solid copper
INSULATION	Skin-Foam-Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil
ARMOR	Corrugated steel tape
SHEATH	Outer sheath: PE black RAL 9005 Inner sheath: LSZH purple RAL 4001

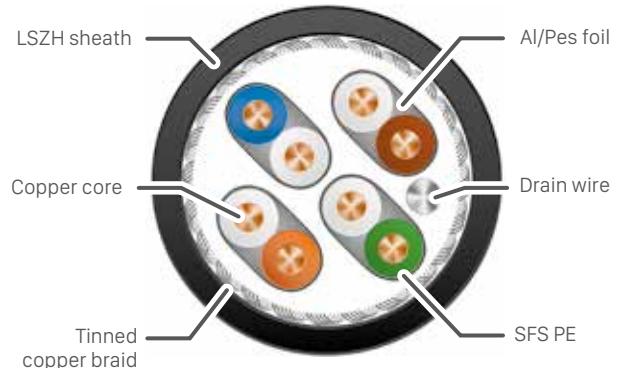

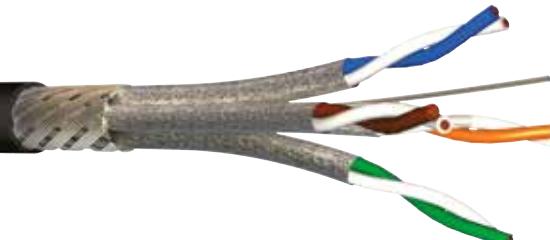

Properties

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	95 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	78 %
	Coupling attenuation	65 dB
ENVIRONMENTAL	Operating temperature	-20°C à +60°C
	CPR level	Fca

* The external sheath is subject to a +/-0.2 mm difference in diameter

CATEGORY 6A AWG26 IN/OUT S/FTP CABLES

+ ADVANTAGES

- Easy installation : AWG26 allow easy termination with RJ45 plug to IP equipment
- Saving space thanks to small cable diameter
- Water and UV resistant : suitable for indoor and outdoor applications

Applications

- VOICE: Analogic, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s on 60 m

Standards

- CABLE : IEC 61156-5 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class (60 m)
EIA/TIA 568.2-D Cat6A (60 m)
EN 50173-1: 2011 Ea Class (60 m)

Characteristics

CONDUCTOR	2 x 4 AWG26 solid copper
INSULATION	Skin-Foam-Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil Overall tinned copper braid shield
SHEATH	LSZH black RAL 9005

Properties

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	145 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	70 %
ENVIRONMENTAL	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1
	CPR level	Dca s2, d2, a2

	Smoke emission	IEC 60754-1

Ordering information

PART NUMBER	PAIRS	SHEATH	OUTER DIAMETER (mm)*	PACKING (m)
SF600P4PUR10	4	PUR	6.4	D1000

* The external sheath is subject to a +/-0.2 mm difference in diameter

CATEGORY 6A U/FTP CABLE

+ ADVANTAGES

- Suitable for patch cord conception or consolidation point links up to CAT6A
- Excellent electromagnetic immunity
- Flame retardant

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER: PoE

Standards

- CABLE : IEC 61156-6 Cat6A
- SYSTEM : ISO 11801 Ed.3 Ea Class
EIA/TIA 568.2-D Cat6A
EN 50173-1: 2011 Ea Class

Characteristics

CONDUCTOR	2 x 4 AWG26/7 stranded copper
INSULATION	Skin Foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Individual Al/Pes foil
SHEATH	LSZH grey RAL 7035

Properties

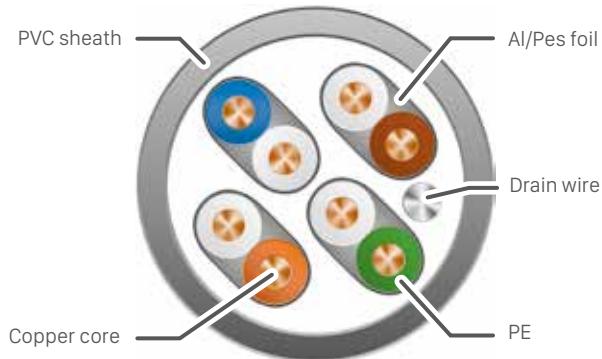

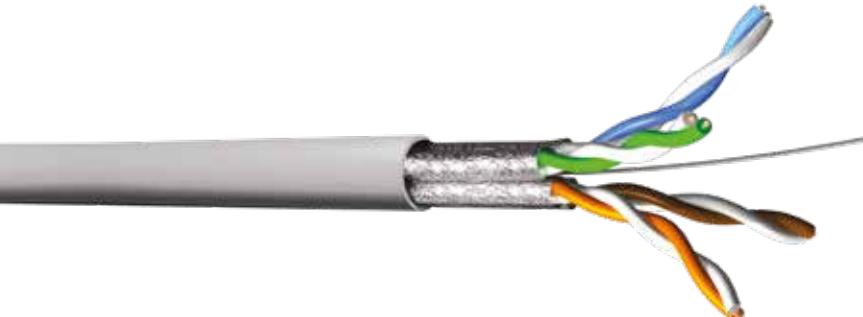

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	145 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	78 %
ENVIRONMENTAL	Coupling attenuation	65 dB
	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1
	Smoke emission	IEC 60754-1

Ordering information

CATEGORY 6 U/FTP CABLES

+ ADVANTAGES

- Suitable for patch cord conception or consolidation point links up to CAT6A
- Excellent electromagnetic immunity
- Flame retardant

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 1 Gbit/s
- POWER: PoE

Standards

- CABLE : IEC 61156-6 Cat6
- SYSTEM : ISO 11801 Ed.3 E Class
EIA/TIA 568.2-D Cat6
EN 50173-1: 2011 E Class

Characteristics

CONDUCTOR	2 x 4 AWG26/7 stranded copper
INSULATION	Solid PE
ASSEMBLY	2 x 4 twisted pairs
SHIELDING	Individual Al/Pes foil
SHEATH	PVC dark blue or grey

Properties

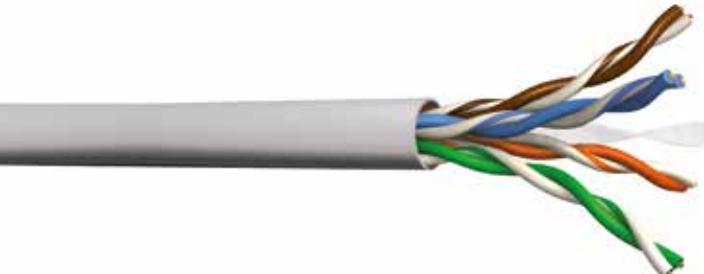

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	154 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	66 %
ENVIRONMENTAL	Coupling attenuation	65 dB
	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1

* The external sheath is subject to a +/-0.2 mm difference in diameter
Replace y by 1 for C100

CATEGORY 6 U/UTP CABLE

+ ADVANTAGES

- Flexible and easy to connect
- Suitable for patch cord conception or point link consolidation up to Cat6
- Flame retardant

Applications

- VOICE: Analog, ISDN, VoIP
- DATA : Ethernet up to 1 Gbit/s
- POWER : PoE

Standards

- CABLE : IEC 61156-6 Cat6
- SYSTEM : ISO 11801 Ed.3 E Class
EIA/TIA 568.2-D Cat6
EN 50173-1: 2011 E Class

Characteristics

CONDUCTOR	2 x 4 AWG26/7 stranded copper
INSULATION	Solid PE
ASSEMBLY	4 twisted pairs on central PE cross
SHEATH	PVC grey RAL 7035

Properties

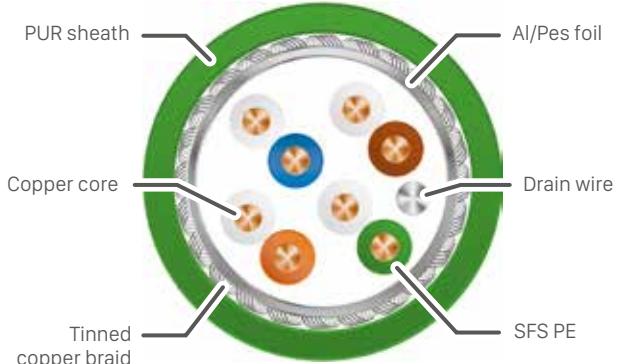

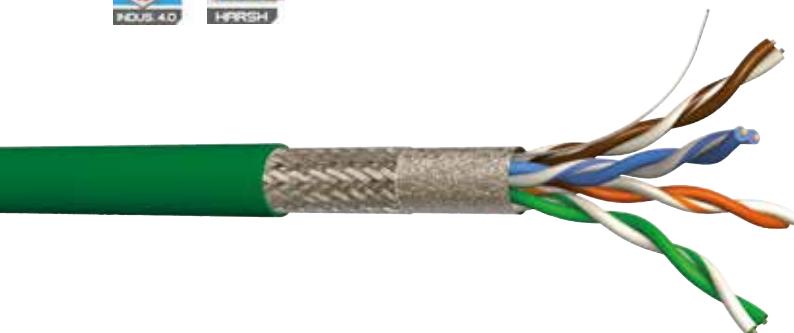

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	145 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	66 %
ENVIRONMENTAL	Operating temperature	-20°C to +60°C

* The external sheath is subject to a +/-0.2 mm difference in diameter

CATEGORY 5e F/UTP HARSH ENV. CABLE

+ ADVANTAGES

- Mechanically and electrically suitable for harsh environments thanks to its PUR sheath : hydrocarbon, oil...
- Stranded cable suitable for flexible industrial link
- Excellent electromagnetic immunity thanks to its double shielding: S/FTP

Applications

- VOICE: Analog, ISDN, VoIP
- DATA : Ethernet up to 1 Gbit/s, industrial network (profinet ...)
- POWER : PoE

Standards

- CABLE : IEC 61156-6 Cat5e
- SYSTEM : ISO 11801 Ed.3 D Class
EIA/TIA 568.2-D Cat5e
EN 50173-1: 2011 D Class

Characteristics

CONDUCTOR	2 x 4 AWG26/7 stranded copper
INSULATION	Skin foam Skin PE
ASSEMBLY	4 twisted pairs
SHIELDING	Overall Al/Pes shielding and tinned copper braid shielding
SHEATH	PUR green RAL 6018

Properties

MECHANICAL	Bending radius	8 x Ø
	Linear resistance	139 Ω/km
ELECTRICAL	Characteristics impedance	100 Ω
	Nominal velocity propagation	74 %
	Coupling attenuation	65 dB
ENVIRONMENTAL	Operating temperature	-40°C to +80°C
	Fire rating	IEC 60332-1
	Smoke emission	IEC 60754-1

Ordering information

* The external sheath is subject to a +/-0.2 mm difference in diameter

SHIELDED CAT6A BC MODULAR JACK**+ ADVANTAGES**

- Component certified connector by a third laboratory
- Compact Keystone connector : very low depth
- 4PPoE certified compliant to IEC 60512-99-002
- Dust shutter in different colors available

Applications

- VOICE : Analog, ISDN, VoIP
- DATA: Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- COMPONENT : IEC 60603-7-51
- SYSTEM : ISO 11801 Ed.3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Classe Ea

Characteristics

DIMENSIONS	21.9 mm x 28.25 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Optimized PCB 4 layers
IDC	V shape : bronze/platine & copper + SnPb
TERMINATION	Tool less solid cable and stranded AWG26 to AWG23
SHIELDING	360° shielding
BODY	One part Zamac keystone

Properties

MECHANICAL	Insertion cycle	750 cycles min/1000 nom.
	Operating Voltage	≤ 72V DC
ELECTRICAL	Test Voltage	≥ 1000V DC contact to contact ≥ 1500V DC contact to ground (IEC 60512-4-1)
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	100 W
	Coupling attenuation	compliant to the ISO 11801
	Operating temperature	-40°C to +70°C
	Fire behavior	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING

UNSHIELDED CAT6A BC MODULAR JACK

+ ADVANTAGES

- Component certified connector by a third laboratory
- 4PPoE certified : compliant to IEC 60412-99-002
- Tool less fast and easy termination
- Dust shutter available in different colors

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- COMPONENT : IEC 60603-7-5
- SYSTEM : ISO 11801 Ed.3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Classe Ea

Characteristics

DIMENSIONS	21.9 mm x 28.25 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Optimized PCB 4 layers
IDC	V shape : bronze/platine and copper + SnPb
TERMINATION	Tool less solid and stranded cable to AWG24 to AWG23
BODY	One part ABS keystone

Properties

MECHANICAL	Insertion cycle	750 cycles min / 1000 nom.
	Operating voltage	≤ 72V DC
ELECTRICAL	Test voltage	≥ 1000V DC contact to contact
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
	Power	100W
ENVIRONMENTAL	Operating temperature	-40°C to +70°C
	Fire behavior	UL 94V0

FULL SHIELDED CAT6A **LK MODULAR JACK**

+ ADVANTAGES

- CAT6A RJ45 tool less modular jack
- CAT6A/Class Ea link certified connector
- Easy and fast tool less termination
- Compact Keystone connector

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s
- POWER : up to 4PPoE

Standards

- COMPONENT : IEC 60603-7-5
- SYSTEM : ISO 11801 Ed 3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Classe Ea

Characteristics

DIMENSIONS	21.9 mm x 28.25 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Optimized PCB
IDC	V shape : bronze/platine and copper + SnPb
TERMINATION	Tool less solid cable to AWG24 to AWG23
SHIELDING	360° shielding
BODY	One part Zamac keystone

Properties

MECHANICAL	Insertion cycle	750 cycles min / 1000 nom.
	Operating voltage	≤ 72V DC
ELECTRICAL	Test voltage	≥ 1000V DC contact to contact ≥ 1500 V DC contact to ground (IEC 60512-4-1)
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	100W
	Coupling attenuation	Compliant to the ISO 11801
Operating temperature		-40°C to +70°C
Fire behavior		UL 94V0

Ordering information

SHIELDED CAT6 BC MODULAR JACK

+ ADVANTAGES

- Exceed the CAT6 standard performance
- Fast and easy tool less termination
- Keystone compact connector : better compatibility with big part of the box
- Dust shutter available in different colors

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbits/s (TR24750 et TSB155)
- POWER : up to PoEP

Standards

- COMPONENT : IEC 60603-7-5
- SYSTEM ISO 11801 Ed.3 Classe E
EIA/TIA 568-C.2 Cat6
EN 50173-1: 2011 Classe E

Characteristics

DIMENSIONS	21.9 mm x 28.25 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Double layers optimized PCB
IDC	V shape : bronze/platine and copper + SnPb
TERMINATION	Tool less solid and stranded cable to AWG24 to AWG23
SHIELDING	360° shielding
BODY	One part Zamac keystone

Propriétés

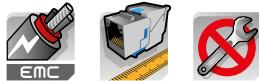

MECHANICAL	Insertion cycle	750 cycles min/1000 nom.
	Operating voltage	≤ 72V DC
ELECTRICAL	Test voltage	≥ 1000V DC contact to contact ≥ 1500 V DC contact to ground (IEC 60512-4-1)
	Contact resistance	≤ 20mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	30W
	Coupling attenuation	Compliant to the ISO 11801
Operating temperature	-40°C to +70°C	
Fire behavior	UL 94V0

SHIELDED CAT6 **LK MODULAR JACK**

+ ADVANTAGES

- CAT6/Class E link certified connector
- Fast and easy tool less termination!
- Keystone compact connector : better compatibility with big part of the box

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 1Gbits
- POWER : up to POEP

Standards

- COMPONENT : IEC 60603-7-4
- SYSTEM ISO 11801 Ed.3 Classe E
EIA/TIA 568-C.2 Cat6
EN 50173-1: 2011 Classe E

Characteristics

DIMENSIONS	21.9 mm x 28.25 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Double layer PCB
IDC	V shape : bronze/platine and copper + SnPb
TERMINATION	Tool less solid and stranded cable to AWG24 to AWG23
SHIELDING	360° shielding

UNSHIELDED CAT6 BC MODULAR JACK

+ ADVANTAGES

- Exceed the CAT6 standard performances
- Modular termination : punch down tool or special tool BCTOOLS type
- Compatible with RJ12 plugs
- Dust shutter available in different colors

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 1 Gbit/s
- POWER : PoEP

Standards

- COMPONENT : IEC 60603-7-4
- SYSTEM : ISO 11801 Ed.3 Classe E
EIA/TIA 568-C.2 Cat6
EN 50173-1: 2011 Classe E

Characteristics

DIMENSIONS	19.30 mm x 33.50 mm x 16 mm (H x W x D)
CONTACT	Bronze/platine/nickel + gold plating
PCB	Double layer optimized PCB
IDC	V shape : bronze/platine & copper + SnPb
TERMINATION	Tool less or punch down solid and stranded cable from AWG24 to AWG23
HOUSING	Unshielded
BODY	ABS

Properties

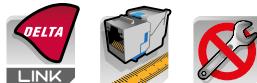

MECHANICAL	Insertion cycle	750 cycles min/1000 nom.
	Operating voltage	≤ 72V DC
	Test voltage	≥ 1000 V DC contact to contact
	Contact resistance	≤ 20 mΩ IEC 60512-2-1

Replace x by the color needed BL: white, B: blue, R: red, J: yellow, V: green

ACCESSORY **BC MODULAR JACK**

+ ADVANTAGES

- Proprietary connection tool for BC series connectivity
- Equipped with blade to strip the cable
- Scale for the stripping

Characteristics

DIMENSIONS	128.5 mm x 58 mm x 23 mm (H x W x D)
FEATURES	Termination tool equipped with blade to strip the cable 6.5 to 7.5 mm
LABELING	Scale for stripping
MATERIAL	Fire retardant thermal plastic

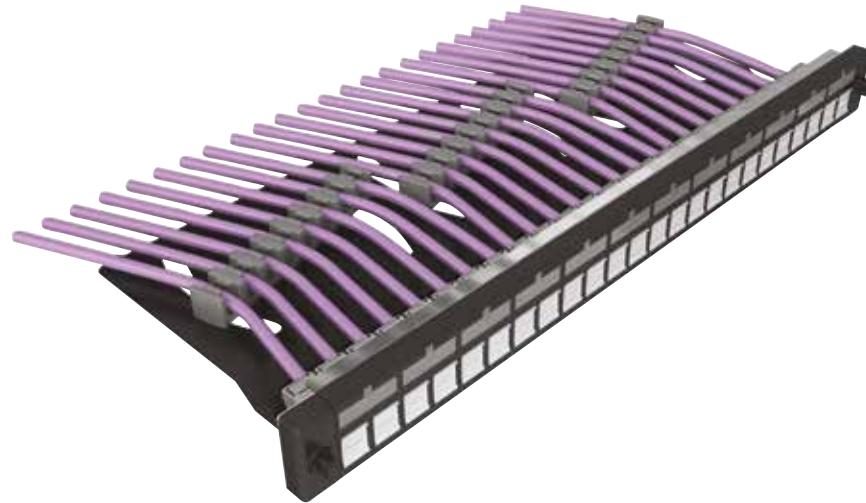

Properties

ENVIRONMENTAL	Operating temperature -5°C to +45°C
	Fire rating UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BCTOOLS	Termination tool for BC jacks	Unit

UNLOADED PATCH PANEL 24 PORTS - 1U

+ ADVANTAGES

- Screw less patch panel
- Rotative rear cable management bloc
- Attach cable system without cable tie
- Front face equipped with removable colored dust shutter

Characteristics

DIMENSIONS	484 mm x 44 mm x 169.4 mm (H x W x D)
FOOTPRINT	Keystone
HANGING	Screw less system (M6 screw can be added and are provided)
IDENTIFICATION	Front label holder and removable colored dust shutter
CABLES MANAGEMENT	3 rotative rear management blocs

Properties

MECHANICAL	Tensile loaded	> 110 N
ELECTRICAL	Ground contact	Direct grounding
ENVIRONMENTAL	Operating temperature	-10°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MMCPAN1U	19" patch panel 24 ports 1U	Unit
BCDUSTPANx8	Dust shutter for BC panel	Pack of 8

Replace x by the color needed BL: White, B : Blue, R : Red, J : Yellow, V : Green

UNLOADED BC PATCH PANEL 24 PORTS - 1U

+ ADVANTAGES

- 19" panel with automatic ground recovery
- Intelligent rear cable support for fixing cables without cable tie
- Keystone format

Characteristics

DIMENSIONS	445 mm x 43.6 mm x 165 mm (H x W x D)
FORMAT	Keystone
FIXING	Central screw to 19" mounting
IDENTIFICATION	Front label holder
CABLES MANAGEMENT	system management without cable ties

Properties

MECHANICAL	Tensile loaded > 110 N
ELECTRICAL	Ground contact Automatic mass recovery
ENVIRONMENTAL	Operating temperature -10°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BCPAN1U	19" patch panel 24 ports 1U BC range	Unit
BCPAN2U	19" patch panel 24 ports 2U BC range	Unit
BCOB	Port blank module for keystone panel	Pack of 10

ANGLED PATCH PANEL BC 48 PORTS - 1U

+ ADVANTAGES

- Angled patch panel 48 ports on 1U dedicated for big density (with BCxFSTL or LINK+ connector)
- Equipped with lateral rings to allow a better management of patch cord
- The rear support is studied to allow the fixing of 48 cables
- A label holder allows a clear identification

Characteristics

DIMENSIONS	445 mm x 44 mm x 100 mm (H x W x D)
FORMAT	Keystone
FIXING	2 screws on each side
IDENTIFICATION	Label holder
CABLES MANAGEMENT	Rear support bar with T shape to fix the cable

Properties

MECHANICAL	Tensile loaded > 110 N
ELECTRICAL	Ground contact Direct grounding
ENVIRONMENTAL	Operating temperature -10°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BCPAN1UV48	Angled patch panel 48 ports on 1U	Unit

ANGLED LK PATCH PANEL 24 PORTS - 1U

+ ADVANTAGES

- Angled patch panel 24 ports : better front management of the cord
- Easy termination : equipped with removable bloc to allow an easy connection
- A label holder allows a clear identification

Characteristics

DIMENSIONS	445 mm x 48.2 mm x 204.4 mm (H x Wx D)
FORMAT	Keystone
FIXING	2 screws to 19" mounting
IDENTIFICATION	Front label holder with removable bloc
CABLES MANAGEMENT	Rear bar with T shape

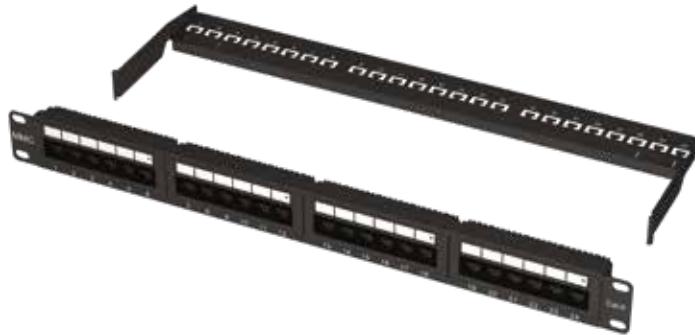

Properties

MECHANICAL	Tensile loaded > 110 N
ELECTRICAL	Ground contact Automatic mass recovery and/or yellow/green wire
ENVIRONMENTAL	Operating temperature -10°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
LKPAN1UV	Angled 19" patch panel 24 ports 1U BC range	Unit
BCOB	Port blank module for keystone panel	Pack of 10

LOADED CAT6 PATCH PANEL 24-48 PORTS

+ ADVANTAGES

- UTP CAT6 loaded patch panel 24 or 48 ports
- Equipped with support bar
- 180° punch down type mechanical insertion connection
- Color coding clearly identified: TIA 568 A or 568 B

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 1Gbit/s
- REMOTE POWER : PoE

Standards

- SYSTEM: ISO 11801 Ed.3 Class E
EIA/TIA 568-C.2 Cat6
EN 50173-1: 2011 Class E

Characteristics

DIMENSIONS	482.6 mm x 43.5 mm x 26.8 mm (H x W x D) (without support bar)
CONTACT	Bronze / Nickel + Gold plating
COMPENSATION	2 layers compensation
IDC	110 Dual IDC Phosphor bronze
TERMINATION	180° punchdown solid and stranded wire from AWG24 to AWG22
CABLES MANAGEMENT	Rear support bar equipped with cable manager (with cable ties)

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Operating voltage	≤ 72 V DC
ELECTRICAL	Voltage test	≥ 1000 V DC contact to contact
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power capacity	≤ 30 W
	Operating temperature	-10°C to +60°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BC6NPANSB24	19" loaded CAT6 unshielded patch panel 24 ports 1U with support bar - BC range	Unit
BC6NPANSB48	19" loaded CAT6 unshielded patch panel 48 ports 2U with support bar - BC range	Unit
MMCMTAT	Punch down tool	Unit

VOICE PATCH PANEL **CAT3 50-60 PORTS 1U**

+ ADVANTAGES

- ISDN telephone panel equipped with 50 or 60 UTP CAT3 ports
- PANISDNxxN : 4/5 and 3/6 pairs with punch down termination

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Mbits/s

Standards

- SYSTEM : ISO 11801 Class C
EIA/TIA 568-B.2 Cat3
EN 50173: 2011 Class C

Characteristics

DIMENSIONS	483 mm x 44 mm x 170 mm (H x W x P)
CONTACT	Phosphor Bronze / Nickel + Gold plating
COMPENSATION	Integrated circuit board
IDC	Dual IDC Phosphor bronze
TERMINATION	PANISDNxxN : mechanical punch down solid and stranded cable from AWG24 to AWG22
CABLES MANAGEMENT	PANISDNxxN : Rear cable manager with cables ties

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Operating voltage	< 72 V DC
ELECTRICAL	Voltage test	> 1000 V DC contact to contact
	Contact resistance	< 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power capacity	< 10 W
	Operating temperature	-10°C to +60°C
	Fire rating	UL94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
PANISDN50N	19" voice panel 50 ports 4-5/3-6 - 1U	Unit
PANISDN60N	19" voice panel 60 ports 4-5/3-6 - 1U	Unit
MMCMTAT	Dual IDC punch down tool	Unit

PUNCH **DOWN TOOL**

+ ADVANTAGES

- Punch down tool for connectors 110, IDC and KRONE
- Allow the termination of voice panel and RJ45 connectors with punch down
- Adjustable with wheel, autocutting with blade

Characteristics

DIMENSIONS	171 mm x 38 mm x 29 mm (H x L x D)
BLADE	Cast iron
TERMINATION	DUAL, IDC : 110 and KRONE

Properties

ENVIRONMENTAL	Operating temperature -10°C to +60°C
	Fire rating UL94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MMCMTAT	Punch down tool for BC series connectors and pre-loaded panel	Unit
MMCLAMENTAT	Blade for punch down tool	Unit

BC SERIE FACEPLATES **FRENCH STYLE**

+ ADVANTAGES

- French style 45 x 45 mm keystone format
- Removable dust shutter for color identification
- Inclined labelling for a better visibility and protected by a flapping crystal window
- Hang system high density

Characteristics

DIMENSIONS	45 mm x 45 mm 1 or 2 ports
FEATURES	Dust shutter flapping
LABELING	Individual and protected label holder
INPUT / OUTPUT	Individual fixing point for cable
MATERIAL	ABS UV resistant white RAL 9003

Properties

ENVIRONMENTAL	Operating temperature -5°C to +45°C
	Fire rating UL94V0
	Protection index IP20

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BC451C8	45 x 45 mm faceplate 1 connector BC range	Pack of 8
BC452C8	45 x 45 mm faceplate 2 connectors BC range	Pack of 8
BCDUSTFPx8	Colored dust flap for BC faceplate	Pack of 8

Replace x by the color needed B : Blue, J : Yellow, V : Green, R : Red

BC SERIE FACEPLATES **UK STYLE**

+ ADVANTAGES

- UK style 86 x 86 mm faceplate
- Integrated dust shutters
- Inclined labelling for a better visibility and protected by a flapping crystals window
- Hang system high density

Characteristics

DIMENSION	86 mm x 86 mm 1 or 2 ports
FEATURES	Dust shutter flapping
LABELING	Individual and protected label holder
INPUT / OUTPUT	Individual fixing point for cable
MATERIAL	ABS UV resistant white RAL 9003

Properties

	Operating temperature	-5°C to +45°C
ENVIRONMENTAL	Fire rating	UL94V0
	Protection index	IP20

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BC861C	86 x 86 mm faceplate 1 connector BC range	Pack of 20
BC862C	86 x 86 mm faceplate 2 connectors BC range	Pack of 20
BC864C	86 x 86 mm faceplate 4 connectors BC range	Pack of 20

SURFACE MOUNTING BOX

+ ADVANTAGES

- Surface mounting box for faceplate format 86 x 86 mm (UK format))
- Depth 35 mm
- Pre cut in order to ensure a good bending radius

Characteristics

DIMENSIONS	86 mm x 86 mm
FEATURES	wall mounting of access points
FIXING	2 screws (supplied)
CABLE ENTRY/EXIT	Pre cut entry
MATERIAL	Polycarbonate UV resistant White RAL 9003

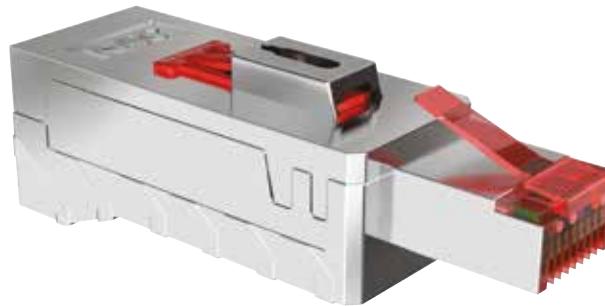

Properties

ENVIRONMENTAL	Operating temperature -10°C to +60°C
Fire rating	UL 94V0
Protection index	IP20

Ordering Information

PART NUMBER	DESCRIPTION	PACKING
WP8686PR9003	86 x 86 mm surface mounting box for faceplate depth 35 mm	Unit
WPF45R9003	Wall plate 45x45 for housing 86x86	Unit

CAT6A SHIELDED MULTI APPLICATION PLUG

+ ADVANTAGES

- Tool less RJ45 plug for solid cable up to AWG22
- Direct attach solution : fast and easy termination
- Excellent EMC thanks to a high Zamac shielding quality
- Locking system to ensure a secured connection

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbit/s
- POWER : up to 4PPoE

Standards

- SYSTEM : ISO11801 Ed.3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173: 2011 Classe Ea

Characteristics

DIMENSIONS	21.2 mm x 19 mm x 18.2 mm (H x W x D)
CONTACT	Gold plating 50 µinch
COMPENSATION	Double layer PCB
IDC	V shape : bronze/nickel 8 µm
TERMINATION	Tool less for solid cable from AWG24 to AWG22
SHIELDING	360° shielded
BODY	High quality ZAMAC

Properties

MECHANICAL	Insertion cycle	750 cycles min / 1000 nom.
	Operating voltage	≤ 72 V DC
ELECTRICAL	Operating test	≥ 1000 V DC contact to contact ≥ 1500 V DC contact to ground
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	≤ 90 W
	Operating temperature	-40°C to +70°C
	Fire rating	UL 94V0

Ordering Information

PART NUMBER	DESCRIPTION	PACKING
PL6AFS	Tool less full Shield CAT6A RJ45 plug for solid cable	Unit
PL6AFSKEY	Unlocking key for PL6AFS	Unit

ROTATING CAT6A MULTI APPLICATION PLUGS

+ ADVANTAGES

- Rotative RJ45 plug for solid cables : 135° rotation to allow a very small bending radius
- Tool less RJ45 plug
- Innovative technology with a flexible PCB
- Available in shielded and unshielded version

Applications

- VOICE: Analog, ISDN, VoIP
- DATA : Ethernet up to 10 Gbit/s
- POWER : up to 4PPOE

Standards

- SYSTEM : ISO11801 Ed.3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173: 2011 Classe Ea

Characteristics

DIMENSIONS	50.50 mm x 13.60 mm x 8 mm (H x W x D)
CONTACT	Gold plating 50 µinch
COMPENSATION	Innovative flexible PCB
IDC	V shape : bronze/nickel 8 µm
TERMINATION	Tool less for solid and stranded cable from AWG26 to AWG22 (insulation max of 1,27 mm)
SHIELDED	PLAG6AFS: shielded PLAG6ANB: unshielded
BODY	flame retardant

Properties

MECHANICAL	Rotation cycle	50 cycles
	Operating voltage	≤ 72 V DC
ELECTRICAL	Test Voltage	≥ 1000 V DC contact to contact ≥ 1500 V DC contact to ground
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	≤ 60 W
	Operating temperature	-40°C to +70°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
PLAG6ANB	Unshielded rotative CAT6A RJ45 plug RJ45	Unit
PLAG6AFS	Shielded rotative CAT6A RJ45 plug RJ45	Unit

SHIELDED CAT6A RJ45 PLUG LINK+

link +
by AMG

+ ADVANTAGES

- Tool less RJ45 plug for solid cables up to AWG23
- Good EMC thanks to a 360° shielding
- Classe Ea performance
- TIA 568 A & B and industrial color coded

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up to 10Gbit/s
- POWER : PoE / PoEP

Standards

- SYSTEM : ISO11801 Ed.3 Classe Ea
EIA/TIA 568-C.2 Cat6A
EN 50173: 2011 Classe Ea

Characteristics

DIMENSIONS	13.61 mm x 45.65 mm x 14.1 mm (H x W x D)
CONTACT	Bronze, platine, nickel and gold plating
COMPENSATION	Double layer PCB
IDC	Bronze + platine/copper + SnPb
TERMINATION	Tool less solid cable from AWG26 to AWG23
SHIELDED	360° shielding
BODY	Zamac

Properties

MECHANICAL	Insertion cycle	750 cycles min / 1000 nom.
	Operating voltage	≤ 72 V DC
ELECTRICAL	Test voltage	≥ 1000V DC contact to contact ≥ 1500 V DC contact to ground
	Contact resistance	≤ 20 mΩ IEC 60512-2-1
ENVIRONMENTAL	Power	≤ 30 W
	Operating temperature	-40°C to +70°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
PLST6AFS	Shielded CAT6A RJ45 plug - LINK+ range	Unit

CRIMPING TOOLS

+ ADVANTAGES

- Crimping tool : RJ45 plug RJ45 (8P8C) or RJ12 (6P6C)
- Tool for intensive use with crimping pressure selection
- BW tool : crimping tool for MMCRJ45SC6BW1 plug made for big diameter wire

Characteristics

DIMENSIONS	50.5 mm x 13.6 mm x 220 mm (H x W x D)
CRIMPING	8P8C or 6P6C
CONSTRUCTION	Steel
HANDLE	Rubber
HOUSING	Black o xyde

Properties

ENVIRONMENTAL	Operating temperature -40°C to +70°C
	Fire rating UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MMCP86MET	RJ45 and RJ12 crimping tools	Unit
MMCP86METBW	RJ45 crimping tools for plug dedicated for big wire	Unit

RJ45 PLUGS & BOOTS

+ ADVANTAGES

- RJ45 plugs high performances : available in shielded and unshielded for wires solid and/or stranded
- Gold plating 50µ inch
- Plugs BW : dedicated for big wire with max insulation diameter 1.5 mm
- Boots for RJ45 plugs : Available in different colors to facilitate the port identification

Characteristics

DIMENSIONS	21.52 mm x 11.8 mm x 8.27 mm (H x W x D)
CONTACT	2 contacts inserters : stranded wire 3 contacts inserters : solid wire
TERMINATION	SI : integrated insert Other : insert not integrated to the plug
MATERIAL	Crystal polycarbonate

Properties

MECHANICAL	Insertion cycle	750 cycles min / 1000 nom.
ENVIRONMENTAL	Operating temperature	-40°C to +70°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MMCRJ45UC6SI	CAT6 RJ45 unshielded plug for stranded cable with integrated insert	Pack of 100
MMCRJ45SC6SI	CAT6 RJ45 shielded plug for stranded cable with integrated insert	Pack of 100
MMCRJ45SC6A	CAT6A RJ45 shielded plug for stranded cable without integrated insert	Pack of 100
MMCRJ45SC6BW1	CAT6 RJ45 shielded plug for big wire (diameter < 1.5 mm) without integrated insert	Pack of 100
MRJSR6X	Colored boots for RJ45 plug and 6mm cable diameter	Pack of 100
MRJBWx1	Boots for plug big wire (MMCRJ45SC6BW1), cable diameter up to 7,5 mm (black or grey)	Pack of 100

Replace x by the color needed N: black, B : blue, R : red, J : yellow, V : green, G : grey

CATEGORY 6A S/FTP RJ45 LED PATCHCORDS

+ ADVANTAGES

- LED identification to allow an easy and quick maintenance in high density cabinet
- Clearly visible from long distance
- High NEXT margin

Applications

- VOICE: Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : PoEP

Standards

- COMPONENT : TIA 568-C.2 Cat6A
- SYSTEM : ISO 11801 Ed.3 Class Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Class Ea

Characteristics

PLUG	RJ45 High performance CAT6A special insert bar on two levels for NEXT compensation
BOOTS	Snagless moulded boots extra flexible
CABLE	Shielded : S/FTP - LSZH
IDENTIFICATION	LED : Red light

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter
ELECTRICAL	Operating temperature	-20°C to +70°C
	Fire rating	UL94V0 IEC 60332-1

Ordering information

PART NUMBER	DESCRIPTION	PACKING
CORD6AS01LED	CAT6A LED shielded S/FTP patch cord 1 m	Unit
CORD6AS02LED	CAT6A LED shielded S/FTP patch cord 2 m	Unit
CORD6AS03LED	CAT6A LED shielded S/FTP patch cord 3 m	Unit
CORD6AS05LED	CAT6A LED shielded S/FTP patch cord 5m	Unit
LEDTOOL	LED activation tool	Unit

CATEGORY 6A U/FTP RJ45 PATCHCORDS

+ ADVANTAGES

- 100% component compliant- Individually tested
- High performance : wire termination on two level to improve the NEXT
- Gold plated 50 µ inch

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : up 4PPoE

Standards

- COMPONENT : TIA 568-C.2 Cat6A
- SYSTEM : ISO 11801 Ed.3 Class Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Class Ea

Characteristics

PLUG	RJ45 High performance CAT6A special insert bar on two levels for NEXT compensation
BOOTS	Snagless moulded boots extra flexible
CABLE	Shielded : U/FTP - LSZH
IDENTIFICATION	Colored boots for identification performance Cat6A

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter
ELECTRICAL	Operating temperature	-20°C to +70°C
	Fire rating	UL 94V0 IEC 60332-1

Ordering information

CORD6AS10MSH	CAT6A shielded U/FTP patch cord 10 m	Unit

CATEGORY 6A S/FTP RJ45 PATCHCORDS LINK+

+ ADVANTAGES

- Class Ea link compliant
- Gold plated 50 µ inch
- High EMC thanks to a S/FTP shielding
- LSZH jacket and different colors available to allow an identification according to TIA 606A

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : up PoEP

Standards

- COMPOSANT : TIA 568-C.2 Cat6A
- SYSTEM : ISO 11801 Ed.3 Class Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Class Ea

Characteristics

PLUG	RJ45 High performance CAT6A special insert bar on two levels for NEXT compensation
BOOTS	Snagless moulded boots extra flexible
CABLE	Shielded : S/FTP - LSZH
IDENTIFICATION	Colored patch cords available

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter

Replace x by the color needed : J = yellow or B = blue or R = Red or V = Green

For grey standard color, remove x

CATEGORY 6A COPPER PATCH CORDS

CATEGORY 6A U/UTP RJ45 PATCHCORDS

+ ADVANTAGES

- High performance : wire termination on two level to improve the NEXT
- PE cross separator to reduce the crosstalk
- Gold plated 50µ inch

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : up PoEP

Standards

- COMPONENT : TIA568-C.2 Cat6A
- SYSTEM : ISO 11801 Ed.3 Class Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Class Ea

Characteristics

PLUG	RJ45 High performance CAT6A special insert bar on two levels for NEXT compensation
BOOTS	Snagless moulded boots extra flexible
CABLE	Unshielded : U/UTP - LSZH
IDENTIFICATION	Colored patch cords available

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter

CATEGORY 6A S/FTP RJ45 PATCHCORDS LINK+**+ ADVANTAGES**

- Cat6A Link compliant
- Gold plated contacts with low resistivity
- Good price/quality ratio

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : PoEP

Standards

- SYSTEM : ISO 11801 Ed.3 Class EA
IEATIA 568-C.2 Cat6A
EN 50173-1 2011 Class EA

Characteristics

PLUG	Cat6A RJ45
BOOTS	Snagless moulded boots extra flexible
CABLE	Shielded : S/FTP - LSZH
IDENTIFICATION	Colored patch cords available

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter

RJ45 PRE-TERMINATED TRUNK

ON REQUEST

+ ADVANTAGES

- Pre-terminated link to optimize the installation time
- Pre-terminated link on request : lenght, category, shielding
- Each link are tested (test included)
- Different solutions of cable assemblies are available

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet
- REMOTE POWER : up 4PPoE depending on type of connection

Standards

- SYSTEM : ISO 11801 Ed.3
EIA/TIA 568-C.2
EN 50173-1

Characteristics

RJ45 JACKS	PRJ45 jacks high performance : BCTL or LK
CABLE	Stranded or solid core cable Shielded or unshielded solution
ASSEMBLY	Jacketed cables / Velcro ties / Plastic ties / Polyamid braid
TEST	Each link are tested following ISO or TIA standard
IDENTIFICATION	Colored dust shutter and labelling of each link

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter
ENVIRONNEMENTAL	Operating temperature	-20°C to +70°C
	Fire rating	IEC 60332-1

CONSOLIDATION **COPPER LINK**

ON REQUEST

**+ ADVANTAGES**

- Consolidation link offers the solution in case of open space office and gives a modularity on the structured cabling
- Consolidation point can be easily installed on double ceiling or double floor
- Saving time solution : preterminated and tested following ISO and/or TIA standard

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet
- REMOTE POWER : Up 4PPoE depending on type of connection

Standards

- SYSTEM : ISO 11801 Ed.3
EIA/TIA 568-C.2
EN 50173-1

Characteristics

RJ45 JACKS	RJ45 jacks high performance : BCTL or LK
CABLE	Stranded or solid core cable Shielded or unshielded solution
ASSEMBLY	Jacketed cables / Velcro ties / Plastic ties / Polyamid braid
TEST	Each link are tested following ISO or TIA standard
IDENTIFICATION	Colored dust shutter and labelling of each link

Properties

MECHANICAL	Mating cycles	750 cycles min / 1000 nom
	Bending radius	8 x outer diameter
ENVIRONNEMENTAL	Operating temperature	-20°C to +70°C
	Fire rating	IEC 60332-1

WATERPROOF JUNCTION BOX

+ ADVANTAGES

- Waterproof junction box to protect outside termination : IP54 rated
- Allows all types of connections : copper RJ45, fiber optic, coaxial BNC etc
- Easy installation : can be fixed to the wall
- Adaptable silicone housing regardless of the diameter of the cable

Applications

- COPPER : RJ45 plug or RJ45 connector
- Fiber optic : All types of connectivity : SC or LC
- Coaxial : BNC connectivity

Characteristics

DIMENSION	32.3 x 142.1 x 37.58 (H x W x D)
BODY	Thermal plastic high resistance
HOUSING	Silicone
CABLE DIAMETER	Cable diameter from 5 to 8mm

Properties

ENVIRONMENTAL	IP Rated	IP54
	UV protection	UL 746C
	Operating temperature	-10°C to +60°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
COUPLMMCIP54	Waterproof junction box for copper or fiber optic connection	Unit

CATEGORY 6A RJ45 SHIELDED COUPLER

+ ADVANTAGES

- CAT6A RJ45 Coupler female/female for cross connect or consolidation point
- Shielded coupler with high EMC
- Ensure a Class Ea performance of the link
- Direct connection without tool

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 10 Gbits/s
- REMOTE POWER : PoEP

Standards

- COMPONENT : IEC 60603-7
- SYSTEM : ISO 11801 ED3 Class Ea
EIA/TIA 568-C.2 Cat6A
EN 50173-1: 2011 Class Ea

Characteristics

DIMENSIONS	16.4 mm x 30 mm x 20.3 mm (L x W x H)
CONTACT	Gold plated contact
COMPENSATION	Double Layer integrated PCB + Lead frame
HOUSING	Zamac

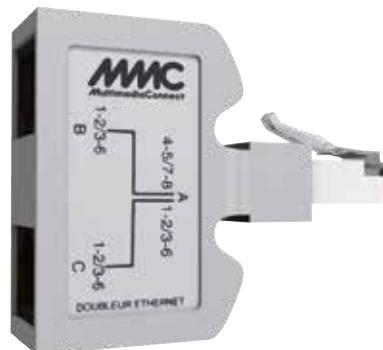

Properties

MECHANICAL	Insertion cycles	750 cycles min
	Current rating	1.5 A
ELECTRICAL	Insulation resistance	500 mΩ
	Contact resistance	20 mΩ
	Power capacity	> 30 W
ENVIRONMENTAL	Operating temperature	-40°C to +70°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
COUPLK6AFS	CAT6A fully shielded 360° RJ45 coupler female/female	Unit

CAT5 & 3 (4-5/7-8) SPLITTERS

+ ADVANTAGES

- Splitter for Ethernet application
- Allow the connection of two work station in only one socket
- Available for shielded or unshielded link
- Available in CAT5 (pairs 1/2 and 3/6) and CAT3 (pairs 4/5 and 7/8)

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 100 Mbits/s (Cat5) or 10 Mbits/s (Cat3)

Standards

- SYSTEM : ISO 11801
TIA 568-C.2 Cat5 / Cat3

Characteristics

DIMENSIONS	20 mm x 38 mm x 43 mm (L x P x H)
CONTACT	Gold plated contact
COMPENSATION	PCB
HOUSING	Polycarbonate

Properties

MECHANICAL	Insertion cycles	750 nom
	Operating voltage	≥ 72 V D.C
ELECTRICAL	Contact resistance	20 mΩ
	Power capacity	15 W
ENVIRONMENTAL	Operating temperature	-10°C to +40°C
	Fire rating	UL 94 V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
DEFF	Ethernet 1/2 - 3/6 pairs splitter 2 female input and 1 male output for fixe application	Unit
DEFM	Ethernet 1/2 - 3/6 pairs splitter 2 female input and 1 female output for mobile application	Unit
DTUF	Ethernet 4/5 - 7/8 pairs splitter 2 female input and 1 female output for fix application	Unit

GALVANIC ISOLATOR

+ ADVANTAGES

- Plug and play devices to create isolation between networks equipments
- Compliant with EN 60601 medical electrical equipment safety standard
- Equipped with identification econs

Applications

- VOICE : Analog, ISDN, VoIP
- DATA : Ethernet up 1 Gbit/s

Standards

- SYSTEM : ISO 11801
TIA 568-C.2
EN 50173-1
EN 60601

Characteristics

DIMENSIONS	49.90 mm x 64.90 mm x 29.40 mm (L x P x H)
WEIGHT	58g
COMPENSATION	PCB
SHIELD	Full shielded
HOUSING	ABS

Properties

ELECTRICAL	Voltage withstand	4 KV
	Voltage test	4000 Vrms
	Return Loss of isolation component	< -6 dB @ 100 MHz
	Transmission lenght	90 m
ENVIRONMENTAL	Operating temperature	0°C to +60°C
	Fire rating	UL 94V0

Ordering information

PART NUMBER	DESCRIPTION	PACKING
ISOGALVRJ45	Network galvanic isolator	Unit

12 PORTS METAL **CONSOLIDATION BOX**

+ ADVANTAGES

- 12 ports metal consolidation box to offer a modularity of cabling system
- Management rings on the front face for lateral exit of RJ45 links
- Removable fixing brackets for installation on a cable tray or floor installation

Characteristics

DIMENSIONS	337 mm x 278 mm x 41.5 mm (L x P x H)
PORT NUMBER	Keystone 12 ports RJ45
FIXING	Fixing of the technical floor or cable tray using adjustable brackets
MATERIAL	Steel thickness 18/10

Properties

ENVIRONMENTAL	Operating temperature 0°C to +60°C
	Protection index IP20

Ordering information

PART NUMBER	DESCRIPTION	PACKING
BCBOXFS12	12 ports metal consolidation box	Unit

DIN RAIL SUPPORTS**+ ADVANTAGES**

- RJ45 support for DIN RAIL
- Keystone design
- Design studied to allow a good management of the bending radius

Characteristics

DIMENSIONS	Support 1 connector : 18 mm x 40.2 mm x 51.2 mm (L x P x H)
MATERIAL	Stainless steel 1,5 mm

Ordering information

PART NUMBER	DESCRIPTION	PACKING
SUPRJ45DIN	DIN RAIL support for 1 RJ45 connector	Unit

LOCKING SYSTEM **RJ45 PORT**

+ ADVANTAGES

- Allows the unused RJ45 ports to be locked in order to secure the network against not desired connection/deconnection
- Security of patch panel or faceplate
- Unlocked with a key
- Can be adapted on all RJ45 jack

Characteristics

DIMENSIONS	11.6 mm x 10.5 mm x 9.94 mm (L x P x H)
MATERIAL	Polycarbonate
COLOR AVAILABLE	Red

Ordering information

PART NUMBER	DESCRIPTION	PACKING
LOCKRJ45R	Red RJ45 port blocker	Pack of 10 + 1 locking key

FIBER GUIDE AND PERFORMANCES

FIBER SELECTION PER APPLICATION

The optical links are used in several configurations : indoor, outdoor or both. The installation method used will determine the protection level and the direct environment will dictate the jacket choice and the fire rating.

ZIPCORD OR ROUND DUPLEX PATCH CABLES

ON REQUEST

+ ADVANTAGES

- 4 cables structures available with LSZH jacket
 - Zipcord (BIFiber0HAL)
 - Flat duplex (BIFibers)
 - Round duplex (BIFibersR)
 - Armored duplex (BIFiberA)

Applications

- DATA : Ethernet up to 100 Gbits/s
- For fiber optic patchcords
- Direct termination, pigtails and patchcords
- Connections between two floors or between two cabinets

Characteristics

CORE	OM3/OM4/OM5 : 50 µm / 125 µm OS2/G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA & 900 µm colored thermoplastic (following IEC 304)
ASSEMBLY	BIFiber0HAL : 2 zipcord fibers 2.8 mm BIFibers : 2 zipcord fibers in a 3rd sheath BIFibersR : 2 fibers in a round sheath BIFiberA : 2 armored zipcord fibers
PROTECTION	Reinforced with aramid yarns and/or steel armor
OUTER SHEATH	LSZH, color according to the table below

Standards

- OPTICAL FIBER :
 - Multimode : IEC 60793-2-10 : A1a.2 (OM3)
A1a.3 (OM4), A1a.4 (OM5)
 - Singlemode : IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EIA/TIA 568-C.3, EN 50173

Properties

MECHANICAL	Bending radius	20 x Ø
	Tensile load (Permanent)	BIFiber0HAL : 400N BIFibers : 500N BIFibersR : 250N BIFBREA : 500N
	Crush resistance	BIFiber0HAL : 1 000N BIFibers : 1 500N BIFibersR : 500N BIFiberA : 3 000N
	Rodent index	Light (Zip, Flat, round) medium/high (Armored))
	CPR level	Fca Dca s2, d2, a2

INDOOR FIBER OPTIC CABLES

ZIPCORD DROP CABLES

+ ADVANTAGES

- Low radius curvature and low friction
- Suitable for FTTx applications
- Flame retardant

Applications

- Indoor applications in the FTTx network

Standards

- OPTICAL FIBER : Singlemode : IEC 60793-2-50 B6.a (G657A2)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EN 50173, EIA/TIA 568-C.3

Characteristics

CORE	G657 A2: 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	Central position
PROTECTION	2 aramid reinforced plastic strength members
OUTER SHEATH	LSZH light grey

Properties

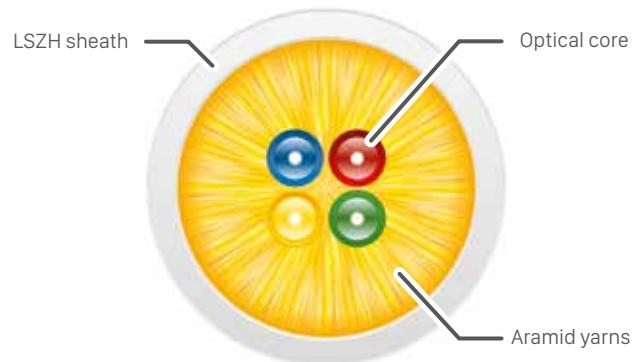

MECHANICAL	Bending radius	20 x Ø
	Tensile load (Permanent)	100 N/50 N
	Crush resistance	500 N
	Rodent index	Light
ENVIRONMENTAL	Operating temperature	-30°C to +60° C
	Fire rating	IEC 60332-1
	Smoke emission	IEC 60754-1 F5
	CPR level	Fca Eca

Ordering information

By default the cables are Fca for Eca replace z by E

ROUND DROP CABLES

+ ADVANTAGES

- Good mechanical resistance
- Suitable for FTTx applications
- Two cables available :
 - 1 core cable
 - 4 cores cable

Applications

- Indoor applications in the FTTx network DC1C and DC4C

Standards

- OPTICAL FIBER : Singlemode : IEC 60793-2-50 B6.a (G657A2)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EN 50173, EIA/TIA 568-C.3

Characteristics

CORE	G657 A2: 9 µm / 125 µm
COATING	250 µm PMMA & 900 µm colored (Following IEC 304) thermoplastic
ASSEMBLY	1 or 4 cores reinforced with aramid yarns assembled into a round LSZH sheath
PROTECTION	Reinforced with aramid yarns
OUTER SHEATH	White LSZH RAL 9003

Properties

MECHANICAL	Bending radius	20 x Ø
	Tensile load (Permanent)	200 N
	Crush resistance	500 N
	Rodent index	Light
ENVIRONMENTAL	Operating temperature	-20°C to +60°C
	Fire rating	IEC 60332-1-2

INDOOR FIBER OPTIC CABLES

6 TO 288 RISER OVAL CABLE

ON REQUEST

+ ADVANTAGES

- From 6 to 288 fibers, a with multiple modularities, from 2 to 12 fibers per micro-sheath
- Easy installation : micro sheaths are easy to unstrip
- Oval shape for easier of installation

Applications

- FTTH applications, vertical cabling
- Allows to collect fiber strings per floor

Standards

- OPTICAL FIBER : Singlemode IEC 60793-2-50 B6.a (G657A2)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EN 50173, EIA/TIA 568-C.33

Characteristics

CORE	G657 A2: 9 µm / 125 µm
COATING	250 µm PMMA colored thermoplastic
ASSEMBLY	Fiber core inside a soft micro tube «easy strip» Up to 12 cores inside each soft tube.
PROTECTION	Jelly or dry, 2 FRP inside the sheath
OUTER SHEATH	Ivory LSZH RAL 1015 or white RAL 9016 Black PE RAL 9005

Properties

MECHANICAL	Bending radius	25 x Ø
	Tensile load (Permanent)	710 N
	Crush resistance	1000 N
	Rodent index	Light
ENVIRONMENTAL	Operating temperature	-40°C to +70° C

6 TO 288 FO ROUND **BACKBONE CABLE**

ON REQUEST

**+ ADVANTAGES**

- From 6 to 288 fibers
- The micro sheaths are easy to unstrip with gel or not
- Round shape for more flexibility and easy pulling
- Easy termination thanks to smart stripping

Applications

- FTTh applications, vertical cabling I

Standards

- OPTICAL FIBER: Singlemode: IEC 60793-2-50 B6.a (G657A2)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EN 50173, EIA/TIA 568-C.3

Characteristics

Replace zz by the type of fiber (example 7A2)

MULTI MICRO BREAK OUT **CABLE ASSEMBLY**

ON REQUEST

**+ ADVANTAGES**

- Cable designed for the MTP or LC link organization in high-density cabinet
- Easy installation : assembly of several micro Break out 250 µm cables to be pulled at the same time
- Up to 50% space saving compared to 900 µm mini break-out cables

Applications

- DATA : Ethernet up to 400 Gbits/s
- Ideal for backbone cabling or in cable bundles
- For Networks Data center (SAN)
- Indoor connection

Standards

- OPTICAL FIBER :
 - Multimode : IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

INDOOR FIBER OPTIC CABLES

2.5 MM BREAK OUT CABLE

+ ADVANTAGES

- Best in class pulling resistance
- Individually protected with aramid yarns
- Flame retardant

Applications

- DATA : Ethernet up to 400G
- Ideal for backbone cabling
- Indoor connections between bays or floors
- Installation in trunkings or cable ducts

Standards

- OPTICAL FIBER:
 - Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

INDOOR FIBER OPTIC CABLES

2.5 MM BREAK OUT CABLE ASSEMBLY

+ ADVANTAGES

- Assembly of several cables MULTIxRyyy
- From 24 FO to 48 FO
- Individually protected with aramid yarns
- Flame retardant

Applications

- DATA : Ethernet up to 400G
- Ideal for backbone cabling or distribution I
- Indoor connections between bays or floors
- Installation in trunkings or cable ducts

Characteristics

CORE	OM3/OM4/OM5: 50 µm / 125 µm OS2 : G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA & 900 µm colored (Following IEC 304) thermoplastic
ASSEMBLY	900 µm fibers Individual sheaths 2.50 mm LSZH around a central element
PROTECTION	Reinforced with aramid yarns
OUTER SHEATH	LSZH colored as per below table

Standards

- OPTICAL FIBER:
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)
Singlemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EIA/TIA 568-C.3, EN 50173

Properties

MECHANICAL	Bending radius	20 x Ø
	Tensile load (Permanent)	4 000N
	Crush resistance	1 500N
	Rodent index	Light
ENVIRONMENTAL	Operating	-20°C to +50° C

900 MM DISTRIBUTION CABLE

+ ADVANTAGES

- Easy installation : tight buffered fiber for direct termination
- Security : LSZH jacket with Cca CPR level
- Flame retardant

Applications

- DATA : ETHERNET UP TO 400 Gbits/s
- Ideal for backbone cabling
- Indoor links or protected outdoor links
- For inter-building links, to be installed in trunkings

Standards

- OPTICAL FIBER:
 - Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)
 - Singlemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794

900 MM BUNDLE TIGHT BUFFERED

ON REQUEST

+ ADVANTAGES

- Easy installation : tight buffered fiber for direct termination
- Saving time instalation : bundle of several cables to be pulled at once
- Flame retardant

Applications

- DATA : ETHERNET UP TO400 Gbits/s
- Ideal for backbone cabling
- Indoor links or protected outdoor links
- Installation in trunkings or cable ducts

Characteristics

CORE	OM3/OM4/OM5: 50 µm / 125 µm OS2/G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA & 900 µm colored (Following IEC 304) thermoplastic
ASSEMBLY	4, 6 or 8 sub cables around a central strength member and covered by a LSZH sheath
PROTECTION	Aramid yarns inside each distribution cable
OUTER SHEATH	LSZH colored as per below tables

Standards

- OPTICAL FIBER:
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

CENTRAL TUBE CABLE

+ ADVANTAGES

- Easy installation : indoor/outdoor cable
- Good watertightness for universal use
- Flame retardant

Applications

- DATA : ETHERNET UP TO 400 Gbits/s
- Indoor or outdoor links
- For inter-building links, to be installed in trunkings
- Termination requires fan-out kit

Characteristics

CORE	OM3/OM4/OM5 : 50 µm / 125 µm OS2/G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	Central tube PBT filled with Gel
PROTECTION	Water resistant glass yarns
OUTER SHEATH	LSZH Back RAL 9005

Standards

- OPTICAL FIBER:
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

MULTI TUBES CABLE

ON REQUEST

+ ADVANTAGES

- Low radius curve and low friction
- Multitube for universal use
- From 24 FO to 144 FO
- Flame retardant

Applications

- DATA : ETHERNET UP TO 400 Gbits/s
- Indoor or Protected outdoor links
- For inter-building links, to be installed in trunkings
- Termination requires fan-out kit

Characteristics

CORE	OM3/OM4/OM5: 50 µm / 125 µm OS2/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	6 or 12 PBT tubes around a central strength member and covered by a LSZH sheath
PROTECTION	Water resistant glass yarns
OUTER SHEATH	LSZH Black RAL 9005

Standards

- OPTICAL FIBER:
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

ARMORED CABLE WITH DOUBLE SHEATH

ON REQUEST

+ ADVANTAGES

- High rodent protection thanks to the armor
- Excellent water tightness thanks to the double sheath
- High crush resistance : allow a direct buried installation

Applications

- DATA : ETHERNET UP TO 400 Gbit/s
- Outdoor links only, DIRECT buried
- Termination requires fan-out kit

Characteristics

CORE	OM3/OM4/OM5: 50 µm / 125 µm OS2/G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	Central tube PBT filled with Gel
PROTECTION	Water resistant glass yarns corrugated steel tape
OUTER SHEATH	LSZH, Double Black Sheath RAL 9005

Standards

- OPTICAL FIBER:
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)
Singlemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM : ISO 11801, EIA/TIA 568-C.3, EN 50173

Properties

MECHANICAL	Bending radius	20 x Ø
	Tensile load to the Installation/Permanent	2500 N / 1500 N
	Crush resistance	5000 N
	Rodent index	Very strong
ENVIRONMENTAL	Operating temperature	-40°C to +70° C

AERIAL DUAL SHEATH MULTI TUBES CABLE

ON REQUEST

+ ADVANTAGES

- Specific cable for aerial links between pylons
- Excellent protection against weather aggressions
- High crush resistance
- UV resistance

Applications

- DATA : Ethernet up to 400 Gbits/s
- Outdoor aerial links only
- Termination requires fan-out kit

Standards

- OPTICAL FIBER :
Singlemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM: ISO 11801, EIA/TIA 568-C.3, EN 50173

Characteristics

CORE	OS2/G652D/G657A2: 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplasti
ASSEMBLY	Multi tube PBT filled with Gel around a central element
PROTECTION	Aramid yarns
OUTER SHEATH	PEHD, double black sheath RAL 9005

Properties

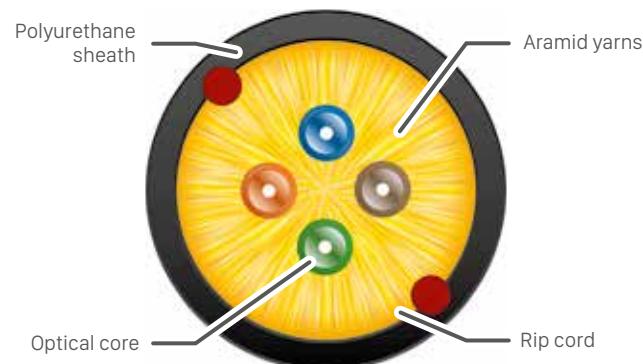

MECHANICAL	Bending radius	20 x Ø
	Tensile load to the Instalation/Permanent	4000N
	Crush resistance	2500 N
	Rodent index	High
ENVIRONMENTAL	Operating temperature	-40°C to +70°C

TACTICAL / INDUSTRIAL 900 MM CABLE

+ ADVANTAGES

- Inensitive to friction
- Small bending raduis
- Suitable for repetitive movements (shape memory)
- Ideal for extreme installations and GSM
- Good tightness and resistance to rodents

Applications

- DATA : Ethernet up to 400 Gbits/s
- Outdoor links
- FTTP, FTTA and hostile environment
- Direct buried installation

Characteristics

CORE	OM3/OM4/OM5 : 50 µm / 125 µm OS2: G652D/G657A2 : 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	Tightly woven fibers in polyurethane sheathing
PROTECTION	Aramid yarns
OUTER SHEATH	Black PUR (polyurethane) RAL 9005

Standards

- OPTICAL FIBER
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)

OUTDOOR FIBER OPTIC CABLE

ARMORED CENTRAL TUBE CABLE

+ ADVANTAGES

- Good level of rodent protection and very high crush resistance
- Can be buried without protection
- Black polyethylene sheath for good UV resistance

Applications

- DATA : Ethern et up to 400 Gbits/s
- Oudoors links only
- Termination requires fan-out kit

Standards

- OPTICAL FIBER
Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)
Siglemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)
- OPTICAL CABLE : IEC 60794
- OPTICAL SYSTEM: ISO 11801, EIA/TIA 568-C.3, EN 50173

Characteristics

CORE	OM3/OM4/OM5 : 50 µm / 125 µm OS2/G652D/G657 : 9 µm / 125 µm
COATING	250 µm PMMA colored (Following IEC 304) thermoplastic
ASSEMBLY	Central PBT tube filled with gel
PROTECTION	Water resistant glass yarns and corrugated steel tape
OUTER SHEATH	PEHD Black RAL 9005

Properties

MECHANICAL	Bending radius	20 x Ø
	Tensile load to the Instalation/Permanent	2 500N / 1500N
ENVIRONMENTAL	Crush resistance	5 000N (version R)
	Rodent index	very strong
ENVIRONMENTAL	Operating temperature	-40°C to +70° C
	Fluid penetrations	IEC 60794-1-2 F5
	UV resistance	IEC 60068-2-5
	CPR level	Fca

FIRE RESISTANT OPTICAL CABLE

+ ADVANTAGES

- Fire resistant optical cable : Following XPC-C 93539
- Optimal protection against rodents thanks to a steel wires armor
- Can be used for direct buried installation

Applications

- DATA : Ethernet up to 400 Gbits/s
- Indoors or outdoor links
- For inter-building links, to be installed in trunkings
- Termination requires fan-out kit

Standards

- OPTICAL FIBER
 - Multimode IEC 60793-2-10 : A1a.2 (OM3), A1a.3 (OM4), A1a.4 (OM5)
 - Singlemode IEC 60793-2-50 : B1.3 (OS2, G652 D) B6.a (G657A)

 Outdoor

FIBER OPTIC PATCH PANELS

3U UHD PANEL

+ ADVANTAGES

- 19" 3U frame for 12 cassettes :total of 288 fibers
- High modularity through different type of cassettes or adapters plates
- Easy maintenance : Access to vertical modules
- Easy cord management : lateral access through open rings

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitain Area Network)
- WAN (Wide Area Network)

Characteristics

DIMENSIONS	Width 482.6 mm (19") x depth 426 mm x height 130 mm (3U)
MATERIAL	12/10 steel sheet and aluminum epoxy paint RAL 7016
FEATURES	19" fixed frame for 12 cassettes or adapter plates
INPUT / OUTPUT	Oval hole equipped with rubber for cable protection

Standards

- OPTICAL PERFORMANCES : IEC-61754-20, IEC-61754-14, IEC-61754-7
- OPTICAL SYSTEM : ISO/IEC 11801 2nd Edition, EN 50173, IEEE 802.3ae, TIA/EIA-604-5

Properties

MECHANICAL	Net weight (unloaded)	5.2 kg (3U)
OPTICAL	Compatible adapters	SCS, LCD, MTP®S
	Maximum density	288 cores
ENVIRONMENTAL	Temperature range	-5°C to + 40°C

Ordering information

PART NUMBER	DESCRIPTIONS	PACKING

Replace zzz by the performances of the fibers: OM3, OM4, OM5, OS2

1U UHD **PANEL 144 FO**

+ ADVANTAGES

- High modularity : 3 independants layers of 4 cassettes for a total of 144 fibers
- Modularity : different module are available
- Easy management thanks to open rings each side
- Easy access to cable : full access thanks to a back cover

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitain Area Network)
- WAN (Wide Area Network)

Standards

- OPTICAL PERFORMANCES : IEC-61754-20, IEC-61754-14, IEC-61754-7
- OPTICAL SYSTEM : ISO/IEC 11801 2nd Edition, EN 50173, IEEE 802.3ae, TIA/EIA-604-5

Characteristics

DIMENSIONS	L Width 482.6 mm (19") x depth 384 mm x height 44.3mm (1U)
MATERIAL	12/10 steel sheet and aluminum epoxy paint RAL 7016
FEATURES	19" telescopic panel for 12 MTP cassettes
INPUT/OUTPUT	Easy access

Properties

MECHANICAL	Net weight (unloaded)	7.06 kg
OPTICAL	Compatible adapters	LCD
ENVIRONMENTAL	Maximum density	144 cores over 12 cassettes
	tempareture range	-5°C to + 40°C

LOADED CASSETTES FOR DC PANEL 1U

ON REQUEST

+ ADVANTAGES

- 6 ports slim cassettes
- Available for preterms, fanout or splicing
- Port numbers are printed on top
- Receives LCQ OR EVEN MTP®D

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitain Area Network)
- WAN (Wide Area Network)

Standards

- OPTICAL PERFORMANCES : IEC-61754-20 IEC-61754-14, IEC-61754-7
- SYSTEM : ISO/IEC 11801 2nd Ed., EN 50173, IEEE 802.3ae, TIA/EIA-604-5

Characteristics

DIMENSIONS	Width 201.5 mm x depth 160 mm x height 11.5mm
MATERIAL	1.2 mm steel with epoxy paint RAL 7016
FEATURES	Removable splice and fanout cassette for DC Panel
INPUT/OUTPUT	2 x cable entry for fanout or splice connection 6 x LCQ or SCD output on front side of the cassette

Properties

MECHANICAL	Net weight (unloaded)	0.486 kg
OPTICAL	Compatible adapters	LCQ, MTP®D
ENVIRONMENTAL	Maximum density	24 cores
	Temperature range	-5°C to +40°C

Ordering information

1/2 ADAPTER FRONT PLATES FOR DC PANEL 1U

ON REQUEST

+ ADVANTAGES

- Modularity with removable front plates
- Labelling thanks printed port number
- Reversible plates

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitain Area Network)
- WAN (Wide Area Network)

Characteristics

DIMENSIONS	Width 202.5 mm x depth 9.5 mm x height 34.5 mm
MATERIAL	1.2 mm steel and epoxy paint RAL 7016
FEATURES	Removable & reversible adapter plates
INPUT/ OUTPUT	15 LC quad or SC duplex adapters 30 LC duplex or SC simplex adapters

Standards

- OPTICAL PERFORMANCES : IEC-61754-20 IEC-61754-14, IEC-61754-7
- SYSTEM : ISO/IEC 11801 2nd Ed., EN 50173, IEEE 802.3ae, TIA/EIA-604-5

Properties

MECHANICAL	Net weight (unloaded)	0.8 kg

MTP CASSETTES FOR DC PANEL 1U

ON REQUEST

+ ADVANTAGES

- Slim MTP®/MPO Plug & Play cassettes
- High reliability : Test reports, S/N & 25 years warranted
- Easy identification : printed port numbers & Polarity sticker
- Ready for MTP 8, 12,24

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitain Area Network)
- WAN (Wide Area Network)

Standards

- OPTICAL PERFORMANCES : IEC-61754-20 IEC-61754-14, IEC-61754-7
- SYSTEM : ISO/IEC 11801 2nd Ed., EN 50173, IEEE 802.3ae, TIA/EIA-604-5

Characteristics

DIMENSIONS	Width 201.5 mm x depth 120 mm x height 11.6mm
MATERIAL	1.2 mm steel with epoxy paint RAL 7016
FEATURES	Extractable Cassette MTP® / 6x LCQ ou SCD
INPUT/OUTPUT	2 x cable entry for fanout or splice connection 6 x LCQ or SCD output on front side of the cassette

Properties

MECHANICAL	Net weight (un-loaded)	0.486 kg
OPTICAL	Compatible adapters :	LCQ, SCD, MTP®D
ENVIRONMENTAL	Maximum density (Based on 2 x 12 FO MTP®)	72 FO with SCD 144 FO with LCQ
	Temperature range	-5°C to +40°C

Ordering information

 Replace z by s for adapters with laser partections (Shutter)

CH1U: 1U UNLOADED TRANSFORMER PANEL

+ ADVANTAGES

- Maximum modularity, removable front plates
- Easy ID with label holders on covering ports
- Ultra High Density, 144 FO on 1U front plates
- Plug & Play solution

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network))

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-14, IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2 EIA/TIA 568-C.3

Characteristics

DIMENSIONS	L 482.6 mm (19") x P 250 mm x H 44.45 mm (1U)
MATERIAL	Steel 1.5 mm (frame) 1.2 mm (front face) RAL 7016
FEATURES	19" panel with removable modules
INPUT/OUTPUT	Cable entry 2 x PG13.5 & 2 x PG16 1 additional entry LGX type

Properties

MECHANICAL	Net weight (unloaded)	2.40 kg
	Compatible adapters	ST, SC, LC, FC, MU, MT-RJ, E2000, MTP®
OPTICAL	Maximum density (Based on 12 FO MTP)	144 FO with 72 x LCD 144 FO with 36 x LCQ 120 FO with 5 cassettes

- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
- CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced)

Characteristics

DIMENSION	width 96.6 mm x depth 40 mm x height 29 mm
MATERIAL	Steel sheet 1.2 mm (fiber modules) Steel Sheet 1.5 mm (copper & brush module) with powder coating RAL 70166
FEATURES	LGX adapter modules loaded with adapter
LOCKING SYSTEM	2 x push-pull buttons (snap latches)

Properties

MECHANICAL	Net weight (unloaded) :	0.06 kg to 0.10 kg
OPTICAL	Compatible adapters	4 x XLR 6 x RJ45 BCTL 6 X SCD/LCQ/MTP®D 12 SCS/LCD/MTP®S
	Compatible fibers	All types of MM & SM
ENVIRONMENTAL	Temperature range	-5°C to +40°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
LX xx A yyyy wwww	Loaded LGX adapter plate module	Unit
LXK7 xxP yyyy zzz	Cassette en ABS équipé de 6 traversées SCD ou LCQ + 12 ou 24 pigtails	Unit

Replace xx by the number of adapters (6 or 12) or pigtails (12 ou 24)

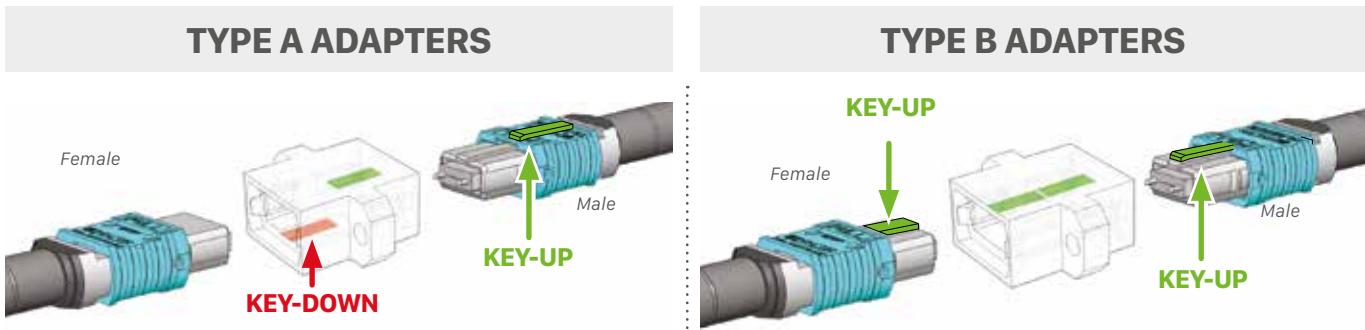

Replace yyyy by the type of adaptaters or pigtails : STS, FCS, SCS, LCD, STD, FCD, SCD, LCQ, XLR (LxK7 : only SCD or LCQ)

Replace wwww by the colore of adaptors : MUL (beige) MONO (bleur of UPC, Green of APC) OM3 (aqua) OM4 (Erica), OM5 (lime green)

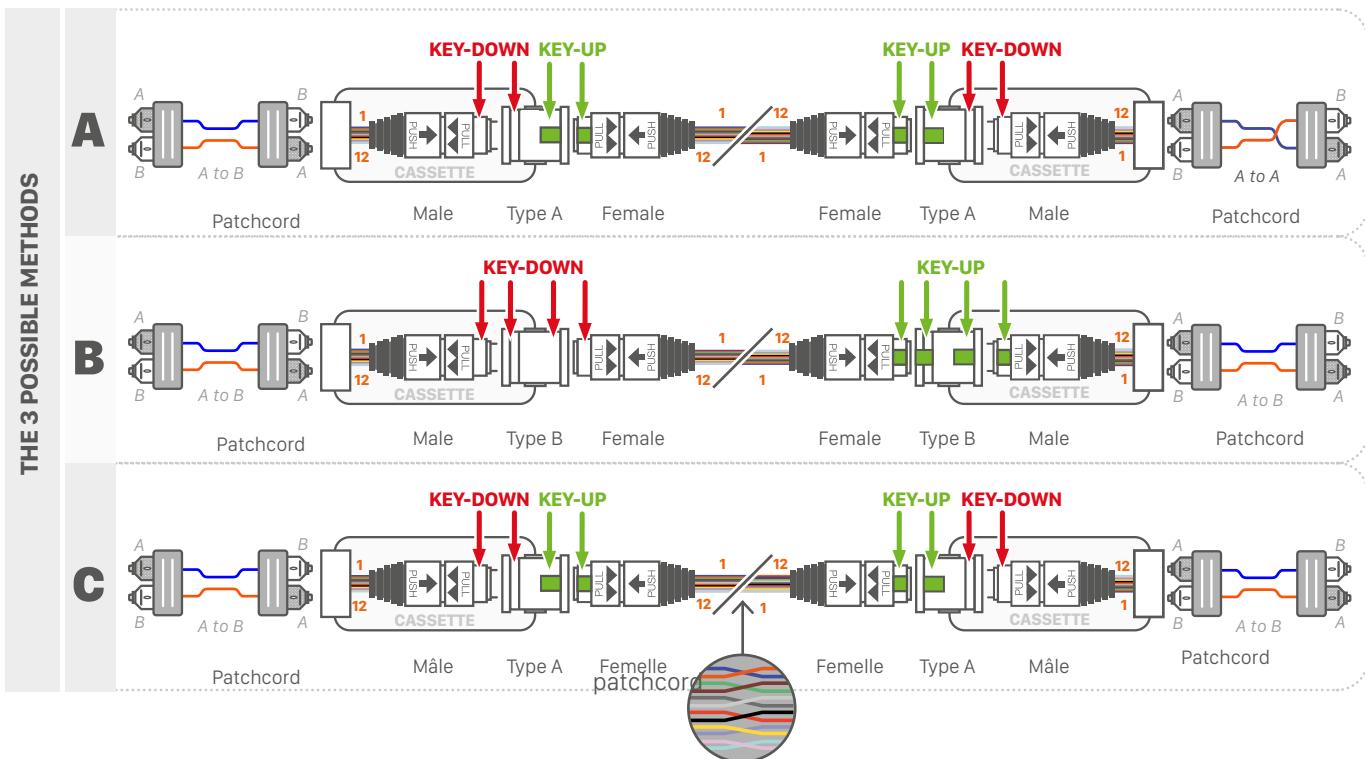

Replace zzz by the pigtails performances : OM3, OM4, OM5, OS2

CASSETTE DIAGRAM POLARITY & GENDER

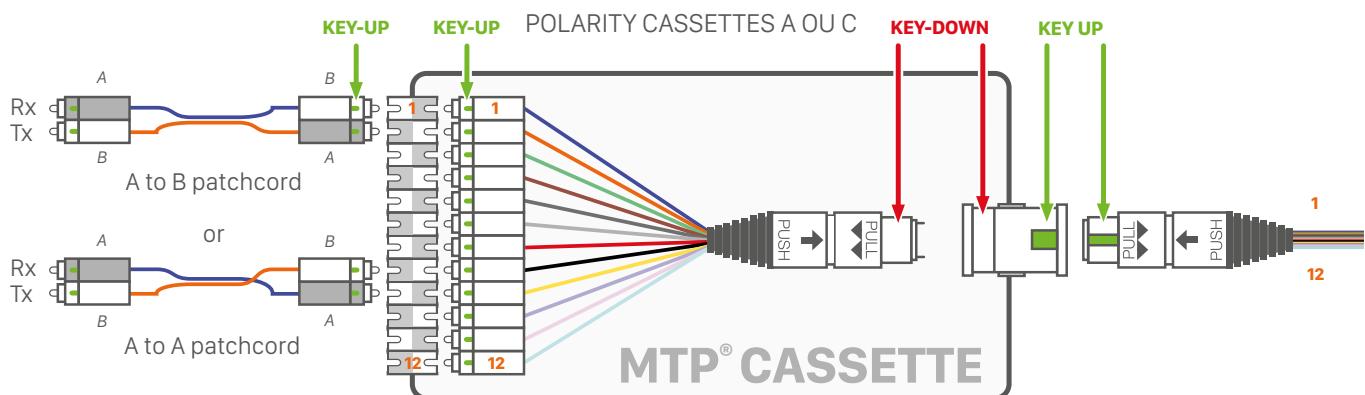

- Type A adapters with opposite key (**UP / DOWN**)
- Type B adapters with aligned key (**UP / UP**)
- Male & female connectors

As per the ANSI/TIA-568C.0, three cabling methods can assure the polarity on the optical link.

Principle of polarity over 12 fibers

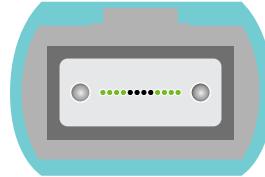

DC CASSETTE **BASE 8, BASE 12, BASE 24**

- Type A adapters with opposite key (**UP / DOWN**)
 - Type B adapters with aligned key (**UP / UP**)
 - Male & female connectors

Base 8 - 40G

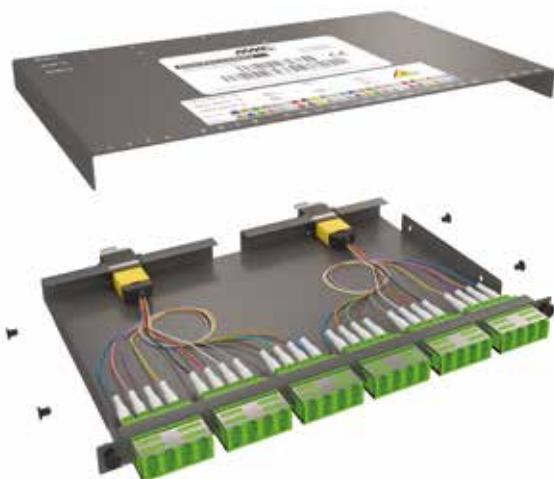

Ref : DCK7MTP6LCAQS2S8

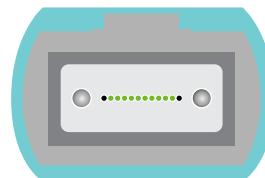

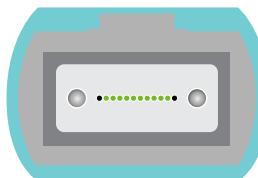

A sequence of 12 circles arranged in two rows of 6. The top row contains four green circles followed by three black circles. The bottom row contains five green circles.

Base 12 - 100G

- 10 x 10G Tx

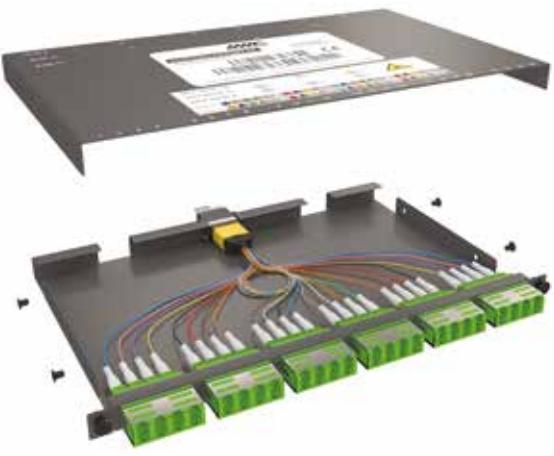

Ref : DCK7MTP06LCAQS

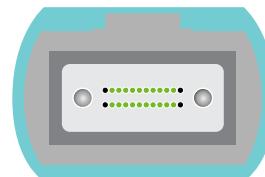

A horizontal sequence of 10 green circles followed by 10 black circles. The green circles are labeled 'Tx' and the black circles are labeled 'Rx'.

Base 24 - 100G

- 10 x 10G Tx
 - 10 x 10G Rx

Ref : DCK7MTP6LCAQS2S4

12/24 FO MTP CASSETTES BASE 12 FOR CH1U

ON REQUEST

+ ADVANTAGES

- Loaded MTP® cassettes 24 FO for CH1U panel
- Plug and play system for saving time installation
- ID label holders on front plate

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)

Standards

- MULTIMODE - IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a4 (om5)
 SINGLEMODE - IEC 60793-2-50 : B1.3 (oS2>, G652 D), B6 a (G657A)
 - OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
 - COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
 - CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced)

Characteristics

DIMENSIONS	width 107.8 mm x depth 109.4 mm x height 25.1 mm
MATERIAL	Steel sheet 1.2 mm with powder coating RAL 7016
FEATURES	Cassettes MTP® pre terminated with 6 or 12 adapters and fan-out
LOCKING SYSTEM	2 x push-pull buttons (snap latches)

Properties

MECHANICAL	Net weight (unloaded)	from 0.06 kg to 0.10 kg
OPTICAL	Compatible adapters	SC, LC
ENVIRONMENTAL	Compatible fiber	all types MM & SM
	Temperature range	-5°C to +40°C

Ordering information

OPTICAL SLIDING TC PANEL

+ ADVANTAGES

- Including cable management
- Easy access to the panel
- Panel with good depth to make easier the splicing operation
- Solution Plug & Play Solution on request

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)

Standards

- IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a4 (om5)
- IEC 60793-2-50 : B1.3 (oS2>, G652 D), B6 a (G657A)
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
- CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced)

Characteristics

DIMENSIONS	Width 482.6 mm (19") x depth 238 mm x height 44 mm
MATERIAL	Steel sheet 1.2 mm with powder coating RAL 7016
FEATURES	Factory assembled & fully loaded fiber panel on request
SPLICING	Fusion, with heatshrink

Properties

MECHANICAL	Net weight (unloaded))	2.5 kg
OPTICAL	Compatible adapters	ST, SC, LC, FC
ENVIRONMENTAL	Compatible fiber	All types MM & SM 48 ST,SC,FC - 96 LC
	Temperature range	-10°C to +40°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
TC 1U 24 SCSLCD	Unloaded TC panel for 24 adapters SCS, LCD	Unit
TC 1U 24 SCDLCQ	Unloaded TC panel for 24 adapters SCD, LCQ	Unit
TC U xx A yyyy wwwww	TC panels loaded with adapters	Unit
TC U xx P yyyy zzz	Ready to splice loaded TC panels	Unit

Replace xx by the number of adapters : from 1 to 24

Replace yyyy by the type of adapters: SCS, LCD, SCD, LCQ

Replace wwwww by the colored of adapters: MUL (beige) MONO (Blue for UPC, green for APC) OM3 (aqua) OM4 (Erica), OM5 (Lime green)

Replace zzz by the pigtail performances : OM3; OM4, OM5, OS2

1U CABLE MANAGER DC

+ ADVANTAGES

- Cable manager for high capacity cord
- Removable front door for easy access
- 2 side rings for optical patch cord management

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)

Standards

- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10

Characteristics

DIMENSION	Outher dimensions width 482.6 mm x depth 80 mm x height 43.5 mm Useful dimensions width 415 mm x depth 79.6 mm x heigh 40 mm
MATERIAL	Steel sheet 1.2 mm with powder coating RAL 7016
FEATURES	cable management
LOCKING	2 x push-pull buttons

Properties

MECHANICAL	Net weigh (unloaded)	0.8 kg
	Ring capacity	216 patchcords of Ø 2 mm or 96 patchcords of Ø 3 mm
OPTICAL	Compatible fiber	All types
ENVIRONMENTAL	Temperature range	-10°C to +50°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
DC MANAGER 1U	1U cable ring manager for patchcords	Unit

FIBER SPOOLER

+ ADVANTAGES

- Complete kits to route fibers inside panels
- Protects the bending radius of 30mm of fibers
- Can be splitted into 4 parts
- Stackable

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)

Standards

- IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a4 (om5)
- IEC 60793-2-50 : B1.3 (oS2>, G652 D), B6 a (G657A)
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
- CECC BFOC 86260, Bellcore/Telcordia GR-326 (réduit)

Characteristics

DIMENSION	Ø 80 mm (base) Ø 60 mm (tray) x heigh 30 mm
MATERIAL	ABS compound
FEATURES	Kit to organize the routing of fibers inside panels

Properties

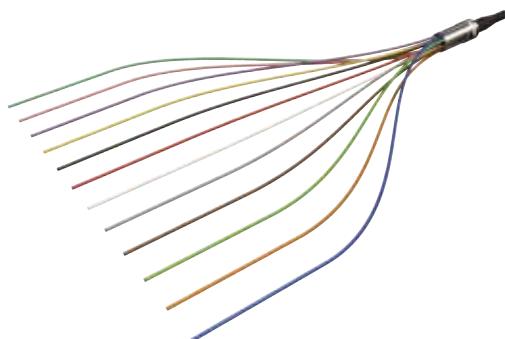

MECHANICAL	Net weigh (unloaded)	0.032 kg/spooler
	Bending radius	30 mm
ENVIRONMENTAL	Temperature range	-5°C to +40°C

Ordering informations

PART NUMBER	DESCRIPTION	PACKING
48MKS	2 bases + 2 trays + 1 PG 13.5 cable gland + cable ties + screws	Unit
48SPOOLERKIT	2 bases + 2 trays	Unit
48SPOOLERTRAY	2 additional trays to be stacked on 2 bases	Unit

DC & MICRO FAN OUT

+ ADVANTAGES

- Direct connect 900 µm connectors to 250 µm
- Suitable for central tubes from Ø 3 to Ø 4.5 mm
- DC version for DC splice cassette 12 & 24 cores
- Micro for transformer panel 12 & 24 cores

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)

Standards

- OPTICAL SYSTEM : ISO 11801 ED2.2 EIA/TIA568-C.3
- CECC BFOC 86260, Bellcore / Telcordia

Characteristics

MATERIAL	Stainless steel	
TUBING	Standard : 12 colored 900 µm	
CRIMP RING	Metal	

Properties

MECHANICAL	Dimensions :	
	DC FANOUT KIT 12C	42 x 17 x 6.2 mm
	DC FANOUT K24C	42 x 25.6 x 6.2 mm
	MICRO FANOUT KIT 12C	38.5 x Ø 11.8 mm
	MICRO FANOUT KIT 24C	38.5 x Ø 14.8 mm
	Tensile traction	
	Crush resistance	45N 52N
	Bending radius	13 mm
ENVIRONMENTAL	Temperature range	-10°C to +50°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
DC FANOUT KIT 12C	DC fanout kit - spreader for 12 fiber	Unit
DC FANOUT KIT 24C	DC fanout kit - spreader for 24 fiber	Unit
48CRIMPTOOLUNIV	Crimp tool for DC fanout kits	Unit
MICRO FANOUT KIT 12C	Micro fanout kit - spreader for 12 fiber	Unit
MICRO FANOUT KIT 24C	Micro fanout kit - spreader for 24 fiber	Unit
48CRIMPTOOLMICRO	Crimp tool for Micro Fanout kits	Unit

SPLICING CASSETTE 12-24-36 CORES

+ ADVANTAGES

- 12, 24, 36 cores per splice cassette
- Density : up to 4 cassettes stacked on 1U height

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitan Area Network)
- WAN (Wide Area Network)

Characteristics

DIMENSION	12 cores: width 150 mm x depth 97 mm x height 80 mm 24 cores: width 220 mm x depth 97 mm x height 80 mm 36 cores: width 230 mm x depth 152 mm x height 80 mm
FEATURES	Stackable splice trays 12/24/36 cores For 40/45/60 mm heatshrink With transparent cover Color coded ID label
MATERIAL	Green ABS Pantone 368C

Standards

- COMPONENT : IEC 60874-14, EIA/TIA 604-3
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- CECC, Telcordia (Bellcore)

Properties

MECHANICAL	Net weight	0.09 kg
	Compatible heatshrink	40, 45 or 60 mm
	Cable entry for cable ties	4 (2 each side)
ENVIRONMENTAL	Temperature range	-5°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
48K712FO1598	Splice tray for 12 heat shrinks 15 x 9.7 x 0.8 cm	Unit
48K724FO2298	Splice tray for 24 heat shrinks 22 x 9.7 x 0.8 cm	Unit
48K736FO23158	Splice tray for 36 heat shrinks 23 x 15.2 x 0.8 cm	Unit

HEATSHRINKS

+ ADVANTAGES

- Shrinkable splice fusion protection tubes
- Steel pin strength member EVA tube
- 40, 45 & 60 mm for all splicers

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitan Area Network)
- WAN (Wide Area Network)

Standards

- COMPONENT : IEC 60874-14, EIA/TIA 604-3
- OPTICAL SYSTEM : ISO 11801 ED 2.2, EIA/TIA 568-C.3
- Mil-I-23053/ 5 class 2
- BS 2056 Type 302 S 26), BT-RC-6959BR
- Bellcore GR 1380

Characteristics

DIMENSION	Cross section 2.4 - 2.2 mm +/- 0.1 mm
FEATURES	Transparent protection tube heat-shrinkable for melting point Lengths 40/45/60 mm
MATERIALS	Heatshrinkable Polyolefin tube ID 2.4-2.2 mm Transparent EVA (Ethylene vinyl Acetate) 1.2 - 1.0 mm stainless steel pin Ø 1.10 mm

Properties

MECHANICAL	Shrink time Full recovery	60 to 120°C
	Tensile traction	10.4 mpa
	Melting point	67°C
ENVIRONMENTAL	Temperature range	-50°C to +125°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MANCHONEPI45150	Heat shrink splice protection tube 1.0/2.2 mm x length 45 mm	Pack of 50
MANCHONEPI60150	Heat shrink splice protection tube 1.0/2.2 mm x length 60 mm	Pack of 50
MANCHONEPISSURE	Heat shrink splice protection tube 1.2/2.4 mm x length 40 mm	Pack of 50
MANCHONEPISSUR60	Heat shrink splice protection tube 1.2/2.4 mm x length 60 mm	Pack of 50

PIGTAILS

+ ADVANTAGES

- Compatible with central loose tube fiber cables
- Suitable for central tubes from Ø 2 mm to Ø 4 mm
- Semi tight buffer

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)
- MAN (Metropolitan Area Network)
- FTTH (Fiber-To-The-Home)
- WAN (Wide Area Network)

Characteristics

CONNECTOR TYPES POLISHING QUALITY	SC, LC, UPC (other on request) Multimode : UPC; Singlemode : UPC, APC 8°
CONNECTOR MATERIAL	Composite
BOOTS MATERIAL	Multimode : beige - Singlemode : blue, green Multimode : beige - Singlemode : blue, green
IDENTIFICATION	900µm semi tight, LSZH Flag sticker

Standards

- Multimode : IEC 60793-2-10 : A1a 2(om3), A1a 3(om4), A1a.5 (OM5)
 Singlemode : IEC 60793-2-50 : B1.3 (oS2>, G652 D), B6 a (G657A)

LC DPLX-SPLX PUSH PULL TAB PATCHCORDS

ON REQUEST

**+ ADVANTAGES**

- High density solution : easy disconnection thanks a pulling tab
- Adaptable to all polarity : reversible thanks to the simplex side
- Reliability : individual test report with RL (Return loss) & IL (Insertion loss) performance

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)

Standards

- MULTIMODE - IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a 4(om5)
 SINGLEMODE - IEC 60793-2-50 : B1.3 (OS2>, G652 D), B6 a (G657A)
 - OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
 - COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
 - CECC BFOC 86260 Bellcore/Telcordia GR-326 (reduced)

Characteristics

CONNECTOR TYPES POLISHING QUALITY	Multimode : UPC Singlemode : UPC or APC
MATERIAL CONNECTOR	Composite
COLOR OF SC/LC HOUSING	Multimode : beige, aqua, magenta, lime green Singlemode : blue, green
FERULE	Zirconia ceramic (ZrO ₂) Singlemode: 125/126 µm Multimode: 127/128 µm

Properties

MECHANICAL	Mating cycles	> 500 (IEC 61300-2-2)
	Vibration	(IEC 61300-2-1)
OPTICAL	Crush resistance	300 - 500 N / dm (short term)
	Bending radius	Multimode : 7.5 mm Singlemode : 15-20 mm
ENVIRONMENTAL	Return loss	Multimode : 35 dB Singlemode : 65 dB
	Insertion loss	de 0.15 to 0.30 dB
	Plage de températures	-40°C to +85°C

LED LC PATCHCORDS FLAT DUPLEX

+ ADVANTAGES

- Easy maintenance thanks to a LED identification
- Far end is clearly visible from 2/3 m distance

Applications

- LAN (Local Area Network)
- SAN (Storage Area Network)

Standards

MULTIMODE - IEC 60793-2-10 : A1a 2(om3), A1a 3(om4), A1a 4(om5)

FLAT DUPLEX **PATCHCORDS**

ON REQUEST

+ ADVANTAGES

- Flat duplex 2.8 x 5.6 mm patchcords for inter cabinets or riser links
- Ideal for links beyond 10 m, up to 50 m
- Reliability : individual test report with RL (Return loss) & IL (Insertion loss) performance

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- SAN (Storage Area Network)

Standards

- MULTIMODE - IEC 60793-2-10 : A1a 2(om3), A1a 3(om4), A1a 4(om5)

STEEL ARMORED ROUND DUPLEX PATCHCORDS

ON REQUEST

**+ ADVANTAGES**

- Steel armored round duplex Ø 3.2 mm for hars environment
- Double stainless steel armor (braid on spiral tube)
- Customized lenghts on request

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- TACTICAL (harsh and rodent environment)

Standards

MULTIMODE - IEC 60793-2-10 : A1a 2(om3), A1a 3(om4), A1a 4(om5)

SIMLEMODE - IEC 60793-2-50 : B1.3 (OS2>, G652 D), B6 a (G657A)

- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA568-C.3

- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10

- CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced)

Characteristics

CONNECTOR TYPES POLISHING QUALITY	ST, SC, LC Multimode : UPC; Singlemode : UPC or APC
MATERIAL OF CONNECTOR	ST : Nickel plat SC, LC : Composite

Replace yyy letter by the lengths : from 100m and more (other on demand)

LINK TYPE "I" IN TIGHT STRUCTURE

ON REQUEST

+ ADVANTAGES

- Saving time solution : preterminated indoor FO link with corrugated pulling protection
- Easy installation : Indoor use in protected narrow environment
- Reliability : tested with OTDR > 100 m on demand

Applications

- LAN (Local Area Network)
- ENVIRONMENT : Indoor / Universal
- PULLING CONDITIONS : To unroll
- LINK TYPES : Horizontal or vertical wiring

Standards

- MULTIMODE - IEC 60793-2-10 : A1a 2(om3) A1a 3(om4) A1a 4(om5)
 SINGLEMODE - IEC 60793-2-50 : B1.3 (OS2>, G652 D), B6 a (G657A)
 - OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA568-C.3
 - COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
 - CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced), GR-409-CORE

Characteristics

CONNECTOR TYPES POLISHING QUALITY	ST, SC, LC, UPC Multimode : UPC Singlemode : UPC or APC
MATERIAL OF CONNECTOR	ST, : Nickel plated SC, LC : Composite
COLOR OF HOUSING	Multimode : beige Singlemode : blue, green
FERULE MATERIAL	Ceramic zirconia (ZrO ₂) Singlemode 125/126 µm Multimode 127/128 µm

Properties

MECHANICAL	Mating cycles	> 2000 (IEC 613000-2-2)
	Tensile load	400N
OPTICAL	Crush resistance	2000N / dm
	Bending radius	20 x Ø
ENVIRONMENTAL	Return loss	Tested with OTDR (>100 m on demand)
	Insertion loss	Tested on OTDR (>100 m on demand) Tested on dB meter (<100 m)
ENVIRONMENTAL	Temperature range	-40°C to +70°C

INDOOR MICRO PRETERMINATED MTP LINKS

ON REQUEST

+ ADVANTAGES

- Micro break-out Ø 250 µm with aramide and sheath Ø 3.0 mm (12 cores)
- Indoor use high density to unroll, narrow environment
- Simple sheath < 10 m,
- Double sheath LSZH >10 m, for internal use

Applications

- SAN (Storage Area Network)
- MAN (Metropolitan Area Network)
- ENVIRONMENT : Indoor using MTP® connectivity
- PULLING CONDITIONS : Easy pulling & Uncoiling
- LINK TYPES : Between 2 racks

Standards

- IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a 4(om5)
- IEC 60793-2-50 : B1.3 (OS2>, G652 D), B6 a (G657A)
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
- CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced), GR-409-CORE

Characteristics

CONNECTOR TYPES POLISHING QUALITY	MTP® female, Standard or Elite Multimode 12c: UPC standard Multimode 24c: UPC Elite Singlemode : APC Elite
MATERIAL OF CONNECTOR	Multimode : Black Singlemode : Black / Yellow Push-Pull tab available as an option
CONSTRUCTION	Aramid or corrugated steel

Properties

MECHANICAL	Mating cycles	> 500 (IEC 613000-2-2)
	Tensile load	150N - 300N - 400N - 800N
	Crush resistance	500-1000-5 000N / 100 mm
OPTICAL	Bending radius	≥ 30-45 mm
	Return loss	Tested with OTDR (>100 m)
	Insertion loss	Tested on OTDR (>100 m) Tested on dB meter (<100 m)
ENVIRONMENTAL	Temperature range	TRUNK : -5°C to +70°C RUG/C : -20°C to +60°C
	Fire rating	IEC 60332-1, 60332-3

Ordering information

PART NUMBER	DESCRIPTION	PACKING
MTP TRUNK xx zz yyy b	Preconnected MTP® link micro single-sheath inner liner LSZH < 10 m	Unit
MTP RUG xx zzz yyy b	Preconnected MTP® link micro single-sheath inner liner LSZH > 10 m	Unit
MTP C xx zzz yyy b	Preconnected MTP® link micro double sheath + inner corrugated steel LSZH > 10 m	Unit

Replace xx by the number of fibers: 12 / 24 fibers

Replace zzz by the length in meters : From 1 to 10 meters (MTP TRUNK), from 10m to the limit of the standard for (MTP RUG, MTP C)

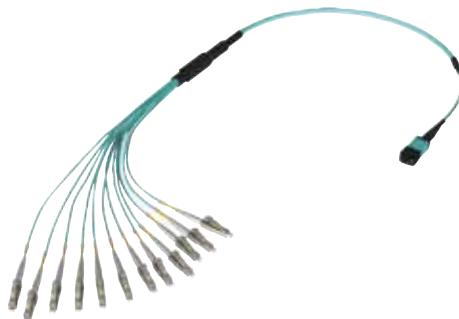

Replace yy by the type of fiber : M3 for OM3, M4 for OM4, M5 for OM5, S2 for OS2 (G652D) A2 for G657 A2) B3 for G657 B3

Replace b by 1 or 2 for 1 x MTP connector 24c or 2 x MTP 12c connector (only for MTP 24 preterms)

INDOOR MICRO PRETERMINATED MTP FAN OUT

ON REQUEST

+ ADVANTAGES

- Indoor FO link with MTP® / LC or SC
- Micro break-out Ø 3.0 mm (12fo) LSZH sheath
- Double LSZH jacket >10 m, for internal use
- Steel reinforced version Ø 5.4 mm or 6 mm

Applications

- SAN (Storage Area Network)
- MAN (Metropolitan Area Network)
- ENVIRONMENT : Indoor using MTP® connectivity
- PULLING CONDITIONS : Easy pulling & Uncoiling
- LINK TYPES : Between 2 racks

Standards

- IEC 60793-2-10 : A1a 2(om3) A1a 3(om4), A1a 4(om5)
- IEC 60793-2-50 : B1.3 (OS2>, G652 D), B6 a (G657A)
- OPTICAL SYSTEM : ISO 11801 ED2.2 EIA/TIA 568-C.3 EN 50173-1: 2002
- COMPATIBILITY : IEC 60874-14, IEC 61754-20, FOCIS-10
- CECC BFOC 86260, Bellcore/Telcordia GR-326 (reduced), GR-409-CORE

Characteristics

CONNECTOR TYPES POLISHING QUALITY	MTP® male, Standard or Elite Multimode 12c: UPC standard Multimode 24c: UPC Elite Singlemode : APC Elite
FEATURES	Multicore patchcord 1 side is MTP®, the other side is SC, LC,
CONSTRUCTION	Aramid or corrugated steel

Properties

MECHANICAL	Mating cycles	> 500 (IEC 613000-2-2)
	Tensile load	400N - 800N
	Crush resistance	1 000-5 000N / 100 mm
OPTICAL	Bending radius	≥ 30-45 mm
	Return loss	Tested with OTDR (>100 m)
	Insertion loss	Tested on OTDR (>100 m) Tested on dB meter (<100 m)
ENVIRONMENTAL	Temperature range	TRUNK : -5°C to +70°C RUG/C : -20°C to +60°C
	Fire rating	IEC 60332-1, 60332-3

MTP FAN xx zz yy aaa b	Preconnected MTP indoor link, double sheath LSZH < 10 m	Unit
MTP FAN C xx zz yy aaa b	Preconnected MTP indoor link, double steel reinforced sheath LSZH > 10 m	Unit

Replace xx by the number of fibers : 12 / 24 fibers

Replace zzz by the length in meters : From 1 to 10 m (MTP® FAN), from 10 m up to the limit of the standard for (MTP® FAN C)

Replace yy by the type of fiber: M3 for OM3, M4 for OM4, M5 for OM5, S2 for OS2 (G652D) A2 for G657 A2) B3 for G657 B3

Replace aaa by the connector : UPC : SC, LC - APC : SCA & LCA

Replace b letter by 1 or 2 for 1 x MTP connector 24c ou 2 x MTP 12c connectors (only for MTP 24 preterms)

INDUSTRIAL **HOUSING DIN RAIL**

+ ADVANTAGES

- Suitable for indoor connections on DIN RAIL installation
- The stored version 48BMOM6SCDLCQI receives 6 STD, SCD or LCQ adapters
- The on-demand version 48BMOM12SCSLCDI receives 12 STS/SCS or LCD adapters
- Interconnection of tightly-structured, free or reinforced fibers
- Splice holder 2 x 6 cores

Applications

- CAN (Campus Area Network)
- FTTP (Fiber-To-The-Plant),
- ENVIRONMENT : Indoor

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-1 IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3

Characteristics

DIMENSIONS	W 61 mm x D 115 mm x H 113 mm
MATERIAL	Steel 12/10 Anthracite electrostatic paint, RAL7016
FEATURES	IP20 fiber wall-mounted housing DIN rail 35 mounting
INPUT	2 cable entries Ø 20mm high and low

Properties

MECHANICAL	Net weight (unloaded)	0.51 kg
	Compatible adapters	STS, SCS, LCD, SCD, LCQ
	Maximum density	24 cores (without splicing) 12 cores (with splicing)
ENVIRONMENTAL	Temperature range	-40°C to +65°C
	UV reaction	NA

Ordering information

PART NUMBER	DESCRIPTION	PACKING
48BMOM6SCDLCQI	Optical housing on DIN rail for 6 SCD or LCQ	Unit
48BMOM12SCSLCDI	Optical housing on DIN rail for 12 SCS or LCD	Unit
48BMOM XX Z YYYY WWW	Wall-mounted DIN rail housing 12/24 fiber equipped	Unit

Replace XX by number of adapters and pigtauls : 12 adapters or 24 pigtauls

Replace Z letter by A or P : A for adapters only, P for pigtauls and adapters

Replace YYYY by the type of adapters : STS, SCS, LCD, FCS, SCAS (SC-APC), LCAD (LC-APC), FCAS (FC-APC),

Replace WWW by the performance of adapters : MULTI (beige) MONO (blue or green)

Replace WWW by the pigtail's performance : OM3; OM4, OM5, OS2

OPTICAL WALL BOX IP65 24 CORES**+ ADVANTAGES**

- Suitable for outdoor connections
- Protects connections from water and dust
- Ready to receive 12 STS, SCS or LCD adapters
- Interconnection of tightly-structured, free or reinforced fibers
- Double-sided removable splicing cassettes

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- MAN (Metropolitan Area Network)
- FTTD (Fiber-To-The-Desk), FTTH (Fiber-To-The-Home)
- FTTA (Fiber-To-The-Antenna)
- ENVIRONMENT : Outdoor or Indoor

Characteristics

DIMENSIONS	W 168 mm x D 65 mm x H 210 mm
MATERIAL	ABS with paint RAL 9005 Supplied with heat-shrinkable sleeves, spiral tubing, cable ties, wall mounting accessories and key
FEATURES	IP65 fiber wall box suitable for interconnections (Routing/distribution)
INPUT	1x 20 mm for cable entries 2x 20 mm for cable exits

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-1 IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3

Properties

MECHANICAL	Net weight (unloaded)	0.85 kg
	Compatible adapters	STS, SCS, LCD
	Maximum density	24 cores (without splicing) 12 cores (with/without splicing)
ENVIRONMENTAL	Temperature range	-40°C to +65°C
	UV reaction	UV protection

Ordering information

OPTICAL SPLITTER 1 TO 144 CORES**+ ADVANTAGES**

- Optical cable splitter on DIN RAIL or wall fixation : 1 cable up to 144 fibers
- Easy installation : can fixed up to 8 splitters on 3U panel 48MKA3U8SB
- Grounding system and grounding kit for armored cable

Characteristics

DIMENSION	Panel 3U x 19" splitter 130mm x 53mm x 33.3mm (L x W x D)
MATERIAL	Panel Steel front face not painted for grounding system Splitter steel 15/10
INPUT/OUTPUT	1 cable entry PG16 1 cable exit with removable rubber slots

Properties

MECHANICAL	Net weight (unloaded)	1.80 kg
	Compatible adapters	STS, FCS, SCS, LCD
	Maximum density	48/24 FO (without splicing) 20 FO (with splicing)
ENVIRONMENTAL	Temperature range	-40°C to +65°C
	UV reaction	UV protection

Ordering information

PART NUMBER	DESCRIPTION	PACKING
48MKASB1X144	Fiber optic cable splitter 1 entry to 144 fibers out	Unit
48MKA3U8SB	19" panel 3U to allow 8 splitters	Unit

FTTBOX 1U FOR 2 LGX MODULES

+ ADVANTAGES

- Wall mounting in floor box or 19" mounting on 1U
- Security : the splicing area is fully secured and locked.
- Modularity : receives 2 LGX modules - 48 cores (LCD) or 24 cores (SCS) or RJ45 and XLR for broadcast use

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- MAN (Metropolitan Area Network)
- FTTD (Fiber-To-The-Desk), FTTH (Fiber-To-The-Home)

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-14, IEC 61754-7
- OPTICAL SYSTEM: ISO 11801 ED2.2, EIA/TIA 568-C.3

Characteristics

DIMENSIONS	W 430 mm x D 310 mm x H 40 mm
MATERIAL	Steel sheet 12/10 with paint RAL 7016 Supplied with snake tube, cable ties, wall mounting accessories and key
FEATURES	Wall box lockable inner door - 19"
INPUT	2 x 25 mm cable glands for inner cable 2 x 20 mm inner cables or lateral rubber outlet of the optical patchcords

Properties

MECHANICAL	Net weight (unloaded)	3.4 kg
	Compatible adapters	ST, SC, LC, XLR, RJ45
	Maximum density	48 cores
ENVIRONMENTAL	Temperature range	-40°C to +50°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
FTTBOX1U	FTTBox 1U not equipped for 2 LGX modules or MTP cassettes	Unit

Replace XX by number of adapters and pigtailed : up to 24 adapters or 48 pigtailed

Replace Z letter by A or P : A for adapters only, P for pigtailed and adapters

FTTBOX 2U FOR 6 LGX MODULES

+ ADVANTAGES

- Wall mounting in floor box or 19" mounting on 2U
- Security : the splicing area is fully secured and locked.
- Modularity : receives 2 LGX modules - 144 cores (LCD) or 72 cores (SCS) or RJ45 and XLR for broadcast use

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- MAN (Metropolitan Area Network)
- FTTD (Fiber-To-The-Desk), FTTH (Fiber-To-The-Home)

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-14, IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3

Characteristics

DIMENSIONS	W 485 mm x D 285 mm x H 85 mm
MATERIAL	Steel sheet 12/10 with paint RAL 7016 Supplied with snake tube, cable ties, wall mounting accessories and key
FEATURES	Wall housing lockable inner door Sliding 19" 2U
INPUT	2 x 25 mm cable glands for inner cable 2 x 20 mm inner cables or lateral rubber outlet of the optical patchcords

Properties

MECHANICAL	Net weight (unloaded)	4.3 kg
	Compatible adapters	ST, SC, LC, XLR, RJ45
	Maximum density	144 cores
ENVIRONMENTAL	Temperature range	-40°C to +50°C

FACEPLATE FOR USER'S OUTLET

+ ADVANTAGES

- Faceplate 45x45 for indoor multimode or singlemode FTTD application
- Horizontal or vertical mounting on a post
- Angled faceplate to save depth in the ducts

Applications

- LAN (Local Area Network)
- CAN (Campus Area Network)
- FTTD (Fiber-To-The-Desk), FTTO (Fiber to the Office)
- POL (Passive Optical Lan)
- ENVIRONMENT : Indoor

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-14, IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3

Characteristics

DIMENSIONS	45 mm x 45 mm
MATERIAL	Polycarbonate (PC) RAL 9010
FEATURES	Inclined faceplate for optical adapters Adapted to user outlets

Properties

MECHANICAL	Bending radius Protected with most chutes
	Compatible adapters STD, FCD, SCD, LCQ, STS, FCS, SCS, LCD
	Maximum density 8 cores (without splitting)
ENVIRONMENTAL	Temperature range -10°C to +60°C

Ordering information

PART NUMBER	DESCRIPTION	PACKING
48MMP2SCD	Faceplate 45 x 45 mm for 2 x SCD or LCQ - RAL 9010	Pack of 6
48MMP2SCS	Faceplate 45 x 45 mm for 2 x SCS or LCD - RAL 9010	Pack of 6
WPF45R9003	Cover 86 x 86 mm 1 port British style - internal space 45x45 mm - RAL 9003	Unit
WP8686PR9003	Surface mount box 86 x 86 mm 1 port British style - depth 45 mm - RAL 9003	Unit

END USERS'S OUTLET FOR FTTH LINKS**+ ADVANTAGES**

- User outlet for FTTH applications
- Wall or 35 mm DIN rail mounting
- Coiling of overlengths on two levels
- Allows the use of heat-shrinkable sleeves

Applications

- MAN (Metropolitan Area Network)
- FTTH (Fiber-To-The-Home)
- ENVIRONNEMENT : Outdoor (or indoor)

Standards

- OPTICAL PERFORMANCES : IEC 61754-20, IEC 61754-14 IEC 61754-7
- OPTICAL SYSTEM : ISO 11801 ED2.2, EIA/TIA 568-C.3

Characteristics

DIMENSION	W 82 mm x D 32 mm x H 90 mm Mounting distance for screws 60 mm
MATERIAL	ABS Composite with paint RAL 9010
FEATURES	Wall or 35 mm DIN rail mounting

Properties

MECHANICAL	Tensile load Bending radius Compatible adapters	$\geq 10\text{daN}$ $\geq 15\text{ mm}$ splicing cassette included SCS
OPTICAL	Maximum density	4 cores
ENVIRONMENTAL	Temperature range	-10°C to +60°C

Ordering information

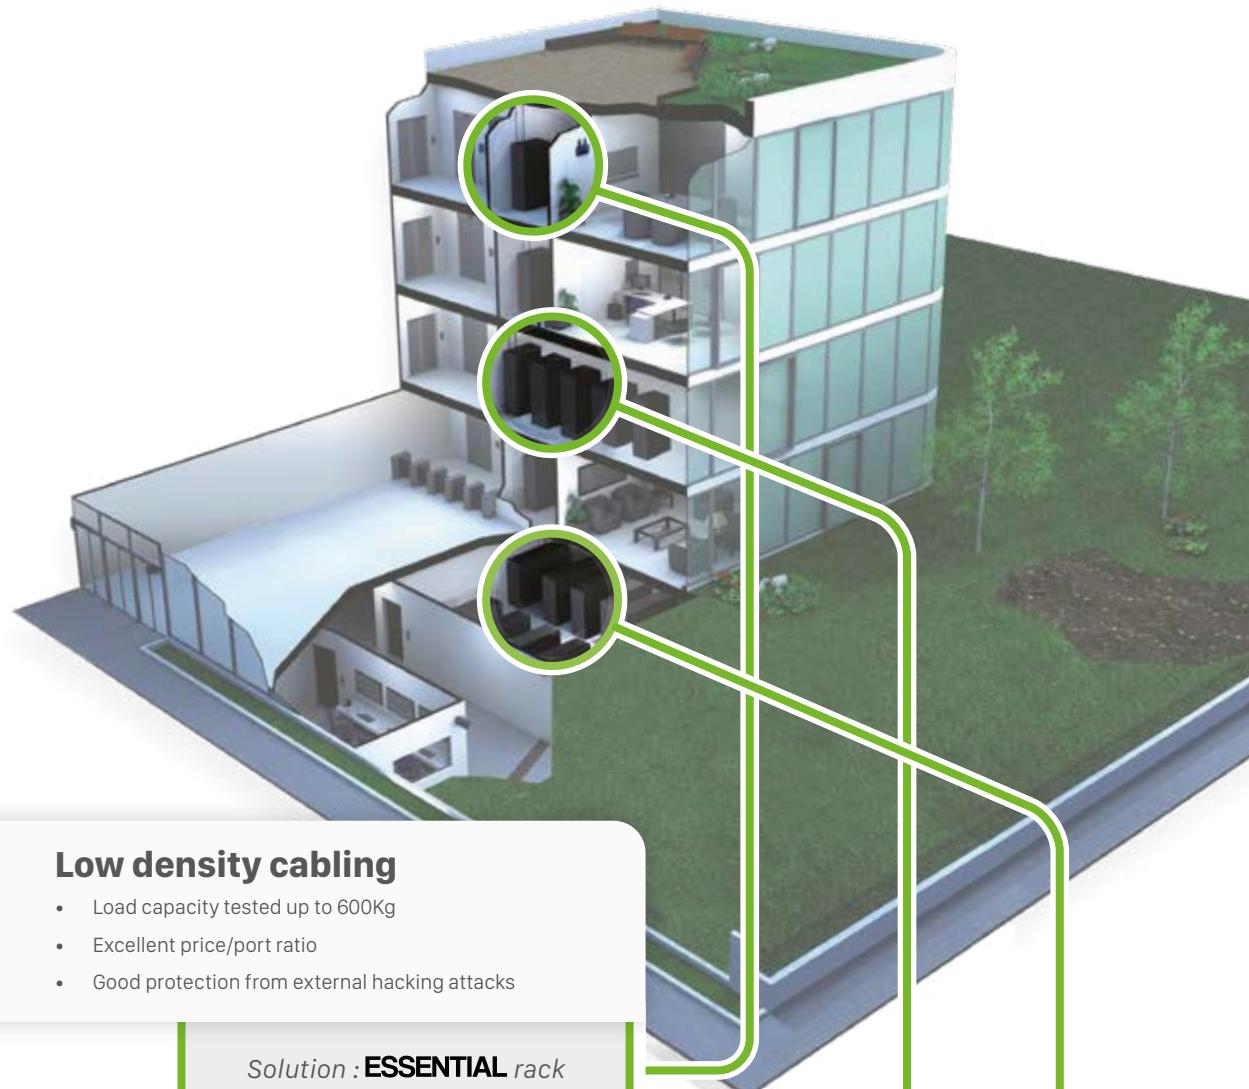

PART NUMBER	DESCRIPTION	PACKING
48FTTH4	Non-equipped housing for 2 users, accommodates 2 simplex SC APC adapters	Unit
48FTTHxCyyz	Ready-to-pull wired subscriber link with G657A2 drop cable for 1, 2 or 4 operators (ISP)	Unit

Replace x by the number of optical strands : 1, 2 or 4

Replace yy by the length in meters : 20, 30, 40, 60 or 90

Replace z by F for a link with a double-sheathed cable for partial outdoor installation.

CABINETS RANGE & ACCESSORIES

Low density cabling

- Load capacity tested up to 600Kg
- Excellent price/port ratio
- Good protection from external hacking attacks

Solution : ESSENTIAL rack

Technical room cabling

- Load capacity tested up to 1250 kg to support active products
- High density management
- Cable management to ensure the sustainability of the installation

Solution : TECHNIC 1000 rack

Data centre environment

- Liading capacity tested up to 1250 kg to support servers requirements
- Optimized Top-of-Server, MoR,EoR configurations
- Perforated front and rear door to allow a better and natural ventilation

*Solution : TECHNIC 1000 rack
with perforated doors*

TECHNIC RANGE

+ ADVANTAGES

- Aluminum trihedral angles and reinforced bar specially designed for aloading capacity up to 1250 kg
- Easy cable management : vertical cable management (width 800)
- Saving space solution : 12U additionaly available in vertical way (width 800)
- Easy maintenance : 180° opening doors to a better accesibility on the cabinet

Characteristics

FRAME	Reinforced 2 mm steel structure Aluminium diecast tryedre
MOUNTING	Front & rear 19" mounting equipped with 3 vertical U (width 800)
FRONT DOOR	Secured and tempered glassed double door (width 800) Secured and tempered glassed single door (width 600)
BACK DOOR	Full metal double door
ROOF	Reinforced roof
CABLE MANAGEMENT	Vertical cable management
COATING	Epoxy Grey painting RAL 7016

Properties

MECHANICAL	Index protection	IP20
	Index mechanical	IK09 compliant to EN62262
ENVIRONMENTAL	Operating temperature	-5°C to +50°C

Ordering information

TECHNIC RANGE CABINET **PERFORATED DOORS**

+ ADVANTAGES

- Aluminum trihedral angles and reinforced bar specially designed for aloading capacity up to 1250 kg
- Ventilation optimized with 80% perforation ratio
- Saving space solution : 12U additionaly available in vertical way (width 800)
- Easy maintenance : 180° opening doors to a better accesibility on the cabinet

Characteristics

FRAME	Reinforced 2 mm steel structure Aluminium diecast tryedre
MOUNTING	Front & rear 19" mounting equipped with 3 vertical U
DOOR	80% perforated front and rear double door (width 800)
ROOF	Reinforced roof
CABLE MANAGEMENT	Vertical cable management
COATING	Anthracite grey RAL 7016 Epoxy painting

Properties

ESSENTIAL6 RANGE

+ ADVANTAGES

- Aluminum trihedral angles for a loading capacity up to 650 kg thanks to 3 reinforced bars in each side
- 270° opening double doors for a better cabinet accessibility
- 4 mountings front active equipment with high depth

Characteristics

FRAME	Reinforced 2 mm steel structure Aluminium diecast tryedre
MOUNTING	Front & rear 19" mounting
DOOR	Secure and tempered glass double front door Rear panel
ROOF	Reinforced roof
CABLE MANAGEMENT	Management by adding ACRINGS6
COATING	Anthracite grey RAL 7016 Epoxy painting

FANS AND THERMOSTAT

+ ADVANTAGES

- Block of 2 or 4 fan unit for 19" cabinet"
- Can be mounted on Essential and Technic range cabinet
- Allow air extraction in order to keep an optimal temperature inside the cabinet
- A thermostat can be added for these fans

Characteristics

DIMENSIONS	300 x 351 x 42 mm (W x D x H) without support
ASSEMBLY	Assembly on roof by support with 4 screws from inside the cabinet
CAPACITY OF VENTILATION	150m3/h per fan
NOISE LEVEL	ACB2V : 43 dB ACB4V : 46 dB
POWER	230V : power cable 2,5 m lenght is provided
THERMOSTAT	Can be associated with ACTHERMOST : operating range 0°C to +60°C
MATERIAL	Steel sheet epoxy grey RAL7016

Ordering information

PART NUMBER	DESCRIPTION	PACKING
ACB2V	Block 2 fans units for 19" cabinet range	Unit
ACB4V	Block 4 fans units for 19" cabinet range	Unit
ACTHERMOST	Thermostat for fans	Unit

CABINET ELEVATION ACCESSORIES

+ ADVANTAGES

- Set of 4 castors to allow displacement of the cabinet : 2 castors are equipped with brakes to ensure security
- Set of 4 levelling steel feet to enhance the height of the cabinet and offer a perfect stability in case of irregular floor
- Cabinet chair for Technic and Essential cabinet range : Two enhancement sizes possible: 16 to 28cm/ 28 to 52cm

Characteristics

CASTOR	4 wheels : 2 wheels with brake
HEIGHT OF FEET	Adjustable feet : height 110 mm
LOAD CAPACITY	300 Kg per feet / 50 Kg per castor
COMPATIBILITY	Essential/Technic range

Ordering information

PART NUMBER	DESCRIPTION	PACKING
ACCASTOR	Castor set for 19" cabinet	Pack of 4
ACLEVFEET	Set of leveling feet for 19" cabinet	Pack of 4

WMC2V	Bloc 2 fans for MMC wall cabinet	Unit
WMCWHEEL	4 wheels for MMC wall cabinet	Unit

600 MM WALL MOUNTED CABINET LINK+

+ ADVANTAGES

- Loading capacity 50 kg
- Easy wall fixation, cabinet assembly by 1 person
- Perfect as a starting point for the distribution of small tertiary or sub-distributor cabling

Characteristics

FRAME	Steel
MOUNTING	Front & rear 19" mounting
FRONT DOOR	Glassed front door equipped with 1 locking point
SIDE PANEL	2 locking points without key
ROOF	Pre cut entry to allow an easy cable entry
COATING	Black RAL 9005

Properties

MECHANICAL	Door	Removable and reversible front door
	Ventilation	Natural ventilation and perforations to fix 2 fans
ENVIRONMENTAL	Operating temperature	-5°C to +50°C

Ordering information

10" WALL MOUNTED CABINET

+ ADVANTAGES

- Available in 6U for building or residential applications
- Reversible front door with 180° opening for a better access to the panel
- Large range of 10" accessories are available

Characteristics

FRAME	Reinforced 2 mm steel structure
MOUNTING	Front 10" mounting
FRONT DOOR	Securit glass door
BACK DOOR	Full panel
ROOF	Roof with perforations to allow a natural ventilation
CABLE MANAGEMENT	Cable entry on the top
COATING	Epoxy black RAL 9005

Properties

MECHANICAL	Index protection (IP)	IP20
ENVIRONMENTAL	Index mechanical (IK)	IK09
	Operating temperature	-10°C to +50°C
